All the world being at peace (apparent ly) it is astonishing to observe the quantity of gunpowder it requires. The quantity of gunpowder sent to foreign ports from the Clyde for 1871, as compared with the corresponding periods of former years, was as follows:-1871, 2,565 500 pounds 1870, 2,455 000 pounds; 1869, 3,160 500 pounds. The shipments in December were: 15,000 lbs. per Loch Ness, for Melbourne; 22.350 pounds per Lusitania, for Bahia; 50 000 pounds per the Seafield, for he Ulva, for Singathe Annie Main for Hong Kong. There were also 30,000 cartridges shipped, per the Eastern Chief, for Yokohama; and 50 tons of gunpowder

pped via London. A saddler in Detroit has a monkey who asually sits in the shop on the counter. A countryman came in one day while the proprietor was in the back room, and seeing a saddle that suited him, asked the price. Monkey said nothing. Customer said, '.'ll give twenty dollars for it." laying down the money, which monkey shoved into the drawer. The man then took the saddle, but monkey mounted him, tore his hair, scratched his face, and made the frightened rustic scream for dear life. Proprietor rushed in and wanted to know what the fuss was, "Fuss?" said the customer, "fuss? I bought a saddle of your son, sitting there, and when I went to take it, he would not let me have it." The saddler apologized for the monkey, out denied the relationship. The wrecking expedition sent out from

Norwich, Conn., to Cumana Bay to recover an immense treasure supposed to have been sunk in the Spanish frigate San Pedro de Alcantara many years ago, has not met with the success that its first explorations led its members to anticipate: but those interested in the enterprise are still undiscouraged. The ship was found, as heretofore described, and the hull has been cleared out; but the result led to the conclusion that the treasure room had been above the shaft of the magazine, and by the terrific force of the explosion the c ntents had been blown into the air and number of loose coins remained in the stern. The bottom of the sea has been thoroughly tested, and the examination that great sums of money are imbedded there, and may be recovered. in the eyes of the world for the purpose of the gentlemen they were requested to walk up stairs to the costuming ro:m, where they were asked by the married ladies to take off their coats that they might arrange their dress. The sheet was look in the glass what ought I to see?' put around the neck and pinned up in front, the two ends tied around the waist, and the pillow case so arranged as with strongly marked features and nearly te resemble a nun's hood. A small white black hair mask was arranged to cover the face. One gentleman was so tightly bandaged that he had to leave the scene of action, and bring a penknife to his aid, or die in the

My first meeting with Mr. Owen Curtis. barrister at law, happened a good many years ago. He was junior counsel for the plaintiff in an action for damages brought against a railway company. There had been a collision on the line, and his client, a passenger, had sustained severe in juries. I was one of the medical wit-There had been a medical consultation

in order that the counsel engaged might be thoroughly instructed as to the technical and scientific questions arising from the evidence. It devolved upon Curtis to master these details of the case so that he might duly prompt his leader as the trial proceeded. I had, therefore, several interviews with the junior counsel, and I remember being much struck with his quickness of perception, and the soundoints to be specially urged upon the He had little scientific knewledge to begin with, but his trained intelligence his retentive memory, and logical method, stood him in good stead. He acquitted himself admirably. It was mainly owing his exertions that the jury were to eral in their award of compensation to is client. His leader, who only came into ourt to deliver his speeches, warm v thanked him, and the judge particularly omplimented him. I make mention hese facts with a view to the character and qualities of the man, being the better

The case over, it so clanted that I met Curtis again and again. There was at no time the intimacy of friendship subsisting between us, but rather a good sort of understanding, based, I suppose upon mutual esteem and professional consideration. If I ever needed legal help I felt sure of obtaining it at his haeds; so, if he wanted medical advice, I took it for granted he would come to me.

Still, even in this informal way, I could hardly count hm as a patient, for he so rarely ailed anything. He was a tall, large-framed, middle-aged man, of active nabits, and with every appearance of great physical strength. His complexion was swarthy, his features were massive but regular, his eyes large and dark, without being remarkably brillient. His forehead was broad, and looked lower thin it really was, from his wearing his thick brownblack hair falling forward upon it in heavy masses. He was usually r ther careless about his dress, but altogether his aspect

was decidedly that of a gentleman. ne called upon me rather late one night begging me to pardon his so doing on the ground that he greatly desired to consult me, and to occupy more of my time, perhim earlier in the day. I was alone, and I hastened to assure him that my services were quite at his disposal. He looked anxious and jaded, I noted, and his manner was certainly agitated. > '(e tainly not,' I said, with a start, wondering at his words. He was much moved, and had the air of one constraining himself to make a painful confession. But in look and manner he manifested no trace

of mental disorder. 'Yes,' he resumed, 'to pronounce me of ansound mind would only be a reasonable conclusion. If my case were another's I should certainly not hesitate so to decide. ndeed, I have the greatest difficulty, as it is, in divesting myself of the conviction that I am, to speak plainly, going mad. More, that on one subject, on one only, so far as I can at present determine, I am

I ventured to suggest that morbid imaginings of the kind he mentioned were | signe', requently due to the depression of spirits which accompanies derangement of the physical system, exhaustion of strength. faculties; that with the renovation of his general health, I had no doubt, these puricular fancies of his, however distressing and acute they might now be, would speedily depart. Connty of Carleton General Pro- | Fign Miss C But you will not decline to listen to me?

he asked. I said I thought it would be more prapresent at any rate, and I asked him to let prescriptions and permitted himself could then, I added, if the necessity for so are respectfully invited to attend doing still existed, go fully into the subje t he had referred to. This proposal did not content him, however.

'There is no time to lose," he said, excitedly. 'Already I may have delayed too long. It is hard to speak on this matter, even to you; but it is harder still to keep silence. The burden of doubt and fear I have been bearing is becoming quite insupportable to me. Think what my position is. I feel that at any moment may be charged with being ins ne, and am conscious that I have no sufficient answer to the charge. Still I feel myself competent and sane enough to discuss the my own, but another man's. How long shall I be able to do so? Who can say

'But surely,' I said, 'you are attaching exaggerated importance to a passing fancy. generated by ill health, which will soon of itself, wholly cease to trouble you.' 'Judging, then, by what you know and can now see of me, putting aside what I have just now said, you would pronounce

cumstance. My health, as I have told you, appreciable extent. I have been much occupied of late, but not excessively so. can detect no decline of my professiona The same invitations were sent to male reputation. My clients still trust me, the

· Unquestionably,' I answered

Granting me sane then, otherwise, in one respect I am strangely, terribly at fault. I'll be as brief as I may. When I 'Your own image, of course.
