PRINTERS' BALL.

The first grand Social of the Ottawa Typographical Union, came off last night in Gowen's Hall; it was the 1st par excellence of the season. However highly we may have spoken of the many previous affairs of the kind, we must give the pl. to that of last night; and we say this not because it was up by printers, but from a disinterested conviction of the fact. There were about one hundred and fifty copies present, a large number of gentlemen, having no connection with printing or printing offices attending with their ladies, and contributing greatly to the effect of the event. To these gentlemen the Union is thankful for their kind encouragement of its first son, and in turn we feel convinced they will long remember with pleasant satisfaction the delightful night's enjoyment afforded them by the Typo of the Capital. Ottawa may not be able to boast of as numerous a union of printers as Montreal or Toronto, but for intelligence, and general good qualities of heart and mind, they take a prominent place in the union, printers and open-hearts, liberal, generous, and self-respecting they will be easily beaten in the eventual competition of the future or their employment. They are constantly engaged in "setting up" in type, puns, witticisms, political news, &c. &c. They are as w. as it passes on general current topics as the most of people, and the opinion of an old printer is almost as good as any other man's valuation of a book. No man can tell what the wall do without printers? The professional gentleman sets in his easy chair in the morning waiting for his paper, and should it by some mistake not reach him, he complains, grumbles, and feels a hundred per cent worse than he would at losing his breakfast. This morning he is up again, and not so much, but what if there were no printers and no paper? The world would cease to move in the eye of the m...m...nger. But all this is simply incidental to our subject.

MISSING.—The inquest on the body of Donald McDonald was terminated yesterday morning. The verdict was "die from heart disease." It appears the man was a heavy drinker, and liquor was no doubt the direct cause of his death.

OTTAWA, PAST AND PRESENT.—This interesting history of the Capital and vicinity, recently published, has met an encouraging reception from the public. Nearly 2,000 have been sold. Every person who has read it, speaks of it flattery. There are a few more copies of it for sale.

ACCIDENT.—A man named James Bonck, a resident of Le Broton's Flats, met with a serious accident last week while employed on the Government Works on the river Dundas. A blast exploded while he was in the act of tampering with the wall do without printers? The professional gentleman sets in his easy chair in the morning waiting for his paper, and should it by some mistake not reach him, he complains, grumbles, and feels a hundred per cent worse than he would at losing his breakfast. This morning he is up again, and not so much, but what if there were no printers and no paper? The world would cease to move in the eye of the m...m...nger. But all this is simply incidental to our subject.

RUNAWAYS.—A couple of runaways occurred yesterday. One sleigh and a set of harness were broken to pieces. Runaways are again becoming very common in this city, and we attribute their frequency to the non-enforcing of the law prohibiting the leaving of horses unattended on the streets.

WATER WORKS COMMISSIONERS.—Mr. Thos. Coffee, leasee of the Bay Ward Market, has, at the request of a large number of rate-payers, consented to take the field election as Water Works Commissioner for Bay Ward. Mr. Coffee is a man of considerable personal talent and experience, and would, no doubt, give satisfaction as Commissioner.

RUSSELL HOUSE BALL.—Mr. Chilton had water at the Russell House and had a good opportunity last night of displaying his skill in laying out table. The tables presented a truly magnificent appearance. We consider the first house of the capital fortunate in having the services of a gentleman so efficient in his profession. The decorations to which we referred were the work of Mr. Chilton.

OTTAWA DIRECTORY.—We are pleased to learn that Messrs. Cherier and White, the enterprising publishers of Montreal, have already received over 800 subscribers to their work, in the City of Ottawa. Hugh J. Aylen. The directory is already under a curse of publication, and we are led to believe that it will be a most successful work. Mr. G. L. Jackson, business partner of the firm, still in town, will continue to endeavor for subscriptions and advertisements for about another week.

MUSIC FOR THE PILOTS.—The Typo were certainly fortunate last night in securing Gowen's band to provide the music for the occasion. Gowen's band under the direction of Mr. Marly, a gentleman of great natural musical talent and acquired proficiency, will become famous wherever it is heard. Mr. Marly not only pleases the company on all occasions with superior music, but his winning manner and obliging nature gains him a good word from every person present.

VALENTINE'S DAY.—To-morrow is Valentine's Day. Valentines without number, and in immense variety, have been on exhibition in the shop windows in the city for some time, and no doubt young folks have provided themselves with ample supplies. Young ladies possessed of an amorous penchant towards bashful bachelors, will remember that this is Leap Year, and that therefore they have a double authority to take the initiative.

AUCTION SALE.—Mr. A. Rowe will sell all the furniture in the Cosmopolitan Restaurant, Ross's Block, Rideau Street, by auction, commencing at 11 o'clock a.m. The sale is particularly deserving the attention of hotel keepers. See advertisement.

MOVES TO LEARN.—Apply to R. A. Bradle, Solicitor, corner of Sparks and Elgin Streets, Ottawa.
