Sir FRANCIS HINCKS said that were not forgetful of the interests of Can- foundress of this Canadian educational ada. And now we can all understand and institution, through the medium of a It was out of the question that the House the wrong tree. There was certainly 24 hours of that information being receivappreciate the necessity which existed for musical seance. The Rev. Fathers Pallier should be expected to look to the news- some truth in what had been said by the ed, a claim had been transmitted. the preservation of silence on the part of and Collins, and a few strangers were papers for advance intelligence on im honourable member for Cornwall, but if he Ministers. We can all recoilect how the present. Several young ladies among portant public questions, and he desired had been in his place oftener than he was detailed statement had ever been prepar-Premier was bullied and abused last sum- whom were, Miss Robertson Ross, Miss of the leader of the Government that that a great improvement had taken place laid on the table showed that the claim mer, for "not declaring his position," we Pellant, Miss Geough, Miss Bauset, and the Ottawa Times had become possessed of in the matter of getting printing done had been compounded on bloc, that for the can all remember how Mr Brown's organ Miss Steers played very charmingly on the this information. heaped upon him every vituperative epithet | piano, and received Ludatory marks of apand abusive term which it could invent preciation from the small audiênce who were so happy in being honored with an because he did not go through the country and make speeches about the Treaty in all playing much proficiency in the musical art, the larger towns and cities. Now we can bearing unmistakeable evidence to the see how improper it would have been for ability of their lady teachers. The pupils Sir John to have listened to the advice of are not taught in a mechanical manner as is the case too often, they are given a the Opposition organ in this matter, and thoroughly fundamental understanding of what disastrous results might have follow- any and every branch of art or science ed if he had done so. The fishery clauses before they are advanced to the more of the Treaty had to be referred to the practical study of it. Hence it is that in performing on the piano the young ladies Canadian Parliament for ratification. Des did so with such artistic accuracy, and, at irous as the Dominion Government were | the same time, displayed so much musical of acting in conjunction with the Imperial taste. Towards the conclusion of the entertainauthorities, and fully recognising as they ment, Miss Armstrong read in English, and did the importance of cultivating a good Miss Belanger in French, a very feeling and understanding with the American people, | beautiful piece of poetry, on the anniverthey were not prepared to recommend the sary which they were celebrating. ratification of the fishery clauses without Pallier thanked the pupils for the pleasure some concessions being made to Canada. Thus, as Mr. Langevin stated at Quebec, intellectual advancement, and gave a just and as we mentioned at the time, the Govand well merited tribute of praise to the ernment "protested" against the fishery Lady Teachers who are so superior in the clauses, and declined to allow American art of educating and training the young the Parliament of the Dominion had had an opportunity of deciding one way or the other. The Imperial Government were very anxious that the fishery clauses should be ratified, and desired that the Canadian Government should recommend their ra tification by the Dominion Parliament. They pressed it upon them almost as an Imperial necessity, but our Government still refused to do so, believing that Canada was entitled to some additi nal remuneration for allowing American fishermen waters are very inferior to ours, why to fish in her waters besides that provided by the Treaty. And in view of the important public works which have to be con-structed throughout the Dominion, the hotels, and advertise through the United speedy completion of which is so essential to our welfare and prosperity as well as to the firm establishment of the Union, the ling the summer months by American and Dominion Government asked the Imperial other visitors at Saratoga and St. Cathaauthorities to guarantee a loan which after rines, is enormous, and there cannot be a some negotiations the latter consented to do. The guaranteeing or this loan of attract the visitors; and show them the

will receive an impetus, and emigration Dominion Barliament. from Europe to Canada will be largely increased. Nor is there anything which can so much promote the prosperity of the country at large, or tend to improve its condition, socially and politically, as the construction of the Pacific Railway and the perfecting of our canal system. Let ese two works be accomplished, and the Canadian people will control as they ought to do, the carrying trade of the North

some additional quid pro quo. At the same

time it was obvious to any one who chose

to give the matter a little consider-

ation, that the Dominion Government

were negotiating with the Imperial au-

ANOTHER MAMMOTH CAVE.

Mr. C. C Carpenter, a gentleman resid ing in Pineville, gives the following as pany with one or two of his friends in search of the won lerful:

wonder is sixteen miles southeast of Pine ville, McDonald county, Mo., the entrance s on Su ar Creek, in a ravine beuring the NEW BOOKS suggestive title of "Bar Hollow." You make your entrance into the bowels of the earth through a volcanic fesure seven feet wide by twenty in length; you roon toose sight of daylight, and find yourself HENDERSUN & UV'S. in a long entrance hall fully one hundred yards in length, which terminates in the out room so named by the explorers from | Anatomy of Vertebrated Animals-Prof. Huxley the thous nds of bats that swarmed within its dark hidden recesses; they flew about in swarms, making a terrible noise in the arched roof above. This room has three smaller caverns or side rooms. The Within and Without—George Macdona'd. dimensions of the room were taken by Mr.

Carpenter, and said to be fifty by one

Carpenter, and said to be fifty by one Hon. Mr. DORION moved for a state- Carpenter, and said to be fifty by one hundred feet, the ceiling about twenty Every Woman Her Own Flower Gardener.

Passing from this room, a walk of about

To the south of this is a room which nor roof. The darkness within the place is appalling. Turning to the east the party walked a distance of about a quarter Hon. Sir FRANCIS HINCKS moved that of a mile, when they came to a flight of to-morrow the House should resolve itself netural steps forty or fifty in numbers into a Committee of the Whole to consider | terminating in a wide platform which certain resolutions amending the Govern- formed the entrance to a mammoth hal, ment's Savings Banks Act, the Act relating supported by Corinthian pillars of varioul declaring it expedent to consolidate the studded with millions of diamonds. This width, and communicates with a number Hon. Sir JOHN A. MACDONALD moved of passages leading in various directions, none of which have been explored.

Proceeding on their way the explorers found a river of running water, coming no one knows from where. It is about fifty feet wide and three feet deep. The party 457 NOTRE DAME ST., MONTREA followed its course down stream to the seconded by Hon. Mr. MACKENZIE, that falls, where the water goes roaring over a Mr. JONES (Leeds and Grenville,) passed by the Senate congratulating Her The party retraced their way to the 75 cents per Bottle; 3 Bottles for \$200. respectfully, moved for co respondence respecting the Majesty on the happy recovery of the mammoth hall, crossed the river, and pronatural curiosities,
