So favorably has the project of establishing a Car Manufacturing Company in Toronto been received by some of our most wealthy and influen-tial men of business, believing, as they express themselves, that the time of its inception is so om saion of 'ace in the invoice, the medium tare | well ch sen, and that great advantages are cershall be ascertained by weighing a few packages of | tain to accrue to the locality of its choice, and the Dominion at large, from the promotion of such works, that, within a period of a few days from B.
