We are glad to hear very favorable accounts of Mr. Howe's health.

A leading Grit in the West is reported to have said, "If money will keep John Hilyard Cameron out of Parliament he will be kept out." But it fortunately happens that money could not keep him out, although the Grits spent enough in a vain attempt to bribe the electors of Cariwell to vote against him.

We have heard that some persons in this city, naturally indignant at the atrocious ornduct of the Honble, George Brown, purpose burning that gentleman in effigy this evening. We sincerely trust this will not be done. That Mr. Brown is a great political failure we all know. That he is an enemy to the country most of us believe. But his punishment is sufficient without burning him either in effigy,-or great bulk of his countrymen; that his selfish efforts have all been frustrated, (the Government will have a majority of dence yesterday afternoon about half succeeded in reaching it, completely fagged and, under such circumstances, it is un. THE WORKINGMEN'S DEMONSTRA TION TO NIGHT.

The workingmen of Ottawa intend this evening to present Sir John Macdonald "the workingman's friend," with a testimonial in token of their esteem and regard for him as a statesman and a patriot. An address, congratulating him on the successful results of his policy during the past five years, will also be presented.

The Presidents of the different Unions will be introduced to the Premier, who will be invited to accompany them to the City Hall.
