Thomas' Eclectric Oil WORTH TEN TIMES ITS WEIGHT IN

Do You Know Anything of It? Is Not, IT IS TIME YOU DID. There are but few preparations of medicine which have withstood the impartial judgment of the peo-ple for any great length of time. One of these is

of some of the best Oils that are known each one possessing virtues of its own. Scientific physicians anow that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider reason of application than any medicine ever before discovered. It contains no alcohol or volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of Oils which they may contain.

He was handsome, intelligent and amiable : but one terrible failure overshadowed those qualities; he was a drunkard. He could plunge a woman into misery, but he could add nothing to her happiness. And while the girl wept, the rector of Rivington sat with his sad eyes fixed upon her. He knew that he could give her no comfort; he might even seem, in her eyes, like the cruel destroyer of her peace; but with the bitter remembrance of the past still gnawing at his heart, he felt that he had a stern duty to perform, and with the help of his Heavenly Father, perform it he would. He waited until her passionate griet had spent itself; then he approached her, and parting aside her curls, kissed her lovingly on her wet cheek. He drew her
