MARTIN, THE WIZARD.-Prof. Martin's entertainment last evening was remarkably well attended. The illusions were good, and were received with great applause. One of the most pleasing features of the performance is the Marrionette. troupe, the dancing and antice of which caused much merriment. At the close of the entertainment the distribution of the 100 gifts took place, and the fairness with which they were distributed appeared to give general satisfaction. The presents were all useful and some of them valuable The professor performs again this evening and from the inducements offered, we have no doubt, will draw a good house.

St. Patrick's Hall - We have seen the programme for next Thursday evening at the St Patrick's Hall, and certainly it is a splendid one. Fourteen beautiful scenes, including a portrait of Mr. Froude and Father Burke, will be shown on the screen. Several talented ameteures will give reads ings, songs and music, and interesting historic sketches will be associated with several of the scenes. To crown the whole, one of the celebrated pipers that performed at the Scotch festival on Monday evening, will p'ay some Scotch music in connection with Scotch scenery. THE THIRTY-THIRD ANNUAL MEETING

Was held in the Board Room of the Association's Offices, at Etinburgh on Tuesday, the 29th October, 1872 Sir Archib Id tho, e But, in the char The following is the substance of the Directors' Report and statement submitted : -During the year ending 5th April, 1872 -

SEALED TENDERS addressed to the New Life Assurances were proposed to the number of 2 317, for £ 34,067 Stg. 1889, for 832181 of which were sorpted, (These New Transactions are upwards of £180 (3K) rore than these of the previous year.) Cash Bonuses were paid to the Policy holders to the amount of £1,070,247 Stg. (This amount is £16,297 greater has the R-venue of the previous year.)

nected with them—the intervening 231 Deaths occurred among the assured, under 289 policies for 123,930 (According to the mortality tables, 3.6 policies should have fallen by l'eath.) 47 New Life Annuities, for £4 725 per annum, was granted, and 12 Annuities, for £457 per annum, fell by the death of the Annuitants.

8,445 Pulicies of Assurance were in force, for£7,684,972 " The Total Claims paid under policies by the Association were. 1,464,717 " The Total Cash Bonuses paid or allotted to Policy-holders were. 521,345 The Assets of the As-ociation at 5th April, 1872, as per the Balance-

(This is an Increase of £413,386 over the previous year) Cash Bonuses were declared at the same rates as last year-namely-from 37 per cent to 25 per cent on the whole life tabular premium - to the participating policy holders in Class A. who have paid at least six years' premiums; the Bonuses to be applied in part payment of the (urrent years' premiums and subject to the survivance of the lives. All policies opened in the year ending 5th April, 1867, thus be ome entitled for the first time to a Cash Bonus at the rate of 25 per cent. These Bonuses are estimated to amount to £39,278 16s 1d. A Dividend to the Shareholders was declared, at the same rate as for the previous

year, - namely 11 per cent on the Paid-up Capital, and payable on the 11th November proximo, under deduction of the portion paid on 15th May last The Directors tendered their sincere thanks to the members of the Boards at the several Branches, with all of whom they worked in full harmony, and especially to the Directors at London and Montreal, where an important part of the business is transacted, and specially thanked all their agents and correspondents, to whose co operation they feel greatly indebted. In moving the adoption of the report, the Chairman addressed

"Iam generally content at our Annu I Mestings to make but few remarks in ubmitting to you the Directors Report and Statements of Account. " A third of a century, however, his now rolled over the Association - a whole generation of men, in fact, have come and gone since its commencement-and although I still find myself without anything of a novel character to comment upon, yet as o ir new transactions of last year have far exceeded thoselof any previous period, thought it would not be unbecoming in me to draw your special attention to that

circum tance, and place before you a few figures from our Books, showing very strikingly, as I think, the rate and quality of our progression. " As regards the amount of our new Life Assurances for the year, £880,000, we are fairly entitled to take the full credit of it, for we have had none of the large policies which now and then occur in all Life Offices, and the most of which has to be given off privately to other companies, that is, 're-assured,' as it is technically termed. On the contrary, it is almost wholly-I may say altogether-composed of good average policies. In short, it is the result of careful attention to our business, coupled with the evidently sound condition of our affairs, alongside of other Institutions, as published in the Board of Trade official returns, and also, as we believe, of a still growing appreciation of the conduct of our affairs, as well as the favorable character of our Bonus system. These new transactions of the year, you will see from the printed statement in your hands, are larger by £480,000 than those of the previous year. And our success is equally conspicuous in the year's Revenue, which shows an increase of £17, 000 over the previous year, and in the addition of a sum of £114,000 since last Balance to the Assets in hand which now amount to £4 550,000. All this has occurred too, notwithstanding the constant drain upon our accumulations caused by our system of yearly Cash Bonuses under Class A. While other Life Offices for the most part keep their surplus in their pockets, giving their assured the benefit only in remote pay ments at death, along with the sum assured, this Institution pays away the Bonusco at once, and in hard cash. These Bonus-payments are at present £35,000 to £40,000 per annum, and have amounted already to no less than £520,000 net, representing, if A pupil of Signor Leon Corelli, the interest be added, a very large sum-probably not much less than £700,000 -of which celebrated teacher of Vocalization, wishes our Policy holders have had the benefit in reducing their outlay for their assurances. to give lessons in Vocalization. She will "So much for our progress in the last year, and present position. Thinking i attend pupils at their residences, or would be interesting to you, as well as instructive, I have caused the Manager to
