Caution.**GENUINE PANCREATINE**

The effects of these Medicines in

treating Consumption, Bronchitis or

Pulmonary Catarrh, Consumption, Wat-

ing, &c., &c., depending entirely on

their purity and strength. Messrs.

SAVORY & MOORE caution the public

against imitations of them which are set

forth as possessing the remedial prop-

erty of the true preparations, but which

we are in reality other imitations com-

pounds, often containing a trace of the Pancreatic principle and a

tiny unfit and useless as medicines.

These imitations are calculated to produce

serious disappointment and to injuriously

improve the reputation which the Genuine

Pancreatine and Pancreatic Emulsion

have acquired. It is therefore highly im-

portant that purchasers examine the label

on the bottles for the names and trade

mark.

Extract from an Analytical Report upon

a Foreign Specimen of a so-called Prepara-

tion of Pancreatine.

The compound resembled an Oste-

ment or Poum in appearance and con-

sistency, and was flavored with Essence of

Almond or Prusso Acid. It was strongly

acidic, produced the usual sa-

moist mass of fat, gummy, and water.

This ointment was physically

chemically different from the true Pan-

creatic Emulsion which I have also exa-

mined, and which, besides being pale in

appearance and consistency of fresh

cream, is palatable and readily taken."
