PEACE PROBABLE.

Basis of Settlement in the 'Virginius' Case Agreed Upon.

WASHINGTON, November 26th.—The Secretary of State will not, say yes or no, this evening to a direct question as to the truth of the report that the Spanish Minister had intimated their willingness to give up the 'Virginius.' All he will say is that the report is premature, but that matters are in a fair way for settlement without hostilities. It is believed, however, that a basis of settlement involving the return of the 'Virginius' has been agreed upon, which has been sent to Madrid, and the return answer is expected to night or to-morrow. The situation as regards Spain is considered peaceful, but the war sentiment is said to tends that if Spain does not accept the plan of settlement proposed by Minister Sickles will leave Madrid at once. It is also declared that the Administration is still maturing active preparations for war.

LATER—THE POINTS OF SETTLEMENT.

It is learned late to-night that it is positively true that the Spanish Ministry at this Government have agreed to substantially the following points of settlement:

First. The surrender of the 'Virginius.'

Second. That the surviving men and the crew must be restored.

Third. Suitable indemnity to be made to families of those slain.

These have been telegraphed to Madrid for approval.

Other disputed points are still a matter of controversy.

It is not known unofficially here what the Madrid Government has accepted the above conclusions.

FINANCIAL.

MONTREAL, Nov. 28th.

The minimum rate of discount at the Bank of England was reduced two per cent to-day, now standing at 6 per cent. The shipments of gold continue to New York and Canada. However, large quantities are being received in London from Australia, and the continent, so that there does not appear to be the same cause for apprehension seemed so apparent to the directors when they began to advance their rates rapidly some weeks ago, with a view to stopping the outflow of specie from the colleges. Sterling Exchange is still firm. Bank 60-day drafts on London sold to-day on street early in the week at 107½, and closing at 107¾. The rate for best private bills is 106½ to 107. Thomas' Eclectic Oil.

WORTH TEN TIMES ITS WEIGHT IN GOLD.

Do You Know Anything or Is? Is So Then You Do.

There are but few proprietors of medicine who have withstood the impartial judgment of the people for any great length of time. The Dr. Thomas' Eclectric Oil, however, has stood the test of some of the best Oils extant, and in addition possessing virtues of its own, which are known that medicines may be formed of certain ingredients in certain proportions, which possess power, and producing the best results, but in addition to the use of any one of them, it is not uncommon. Thus in the case of Dr. Thomas' Eclectric Oil, a chemical change takes place, by the combination which could not by any possibility be effected by any other combination of ingredients, or by any other proportions of the same ingredients, and which is entirely different from anything else known, and which produces the most perfect Liniment ever discovered. It is a Liniment, Internal and External, and for Colds, Coughs, Croup, Asthma, Bronchitis, Sore Throat, Rheumatism, Neuralgia, Lumbago, Pains in the Back, Chest or Limbs, it is unequalled. Whoever buys it will be satisfied of every drop of the Oil is lost in the first dose, yet only the small quantity of this valuable remedy you get only the small quantity of this valuable remedy you get only the small quantity of this valuable remedy you get
