The Skating Rink was the scene of a great deal of enjoyment yesterday afternoon, on account of the Skating Carnival which took place. Nearly 1,000 people were in and around the Rink, amongst whom we noticed many of our leading citisens. Prominent, however, amongst all, we observed the counters of Dufferin, accompanied by Col. Fletcher, the Governor General Leing it seems unable to come through slight indisposition. The Vice E.gal party, more especially the Countess, seemed to immensely enjoy the keen competition which took place between the

various competitors.

PRIZES AND COMPETITO There were four gold med s offered by the proprietors of the Rink, two for lady skaters and other two, for gentlemen skaters. It seems that five competitors entered for the 'adies medals, and a like number for those of the gentlemen. Messrs. Martin, Aumond and Haycock were ap- Before M. O'GARA, P. The competition among the gens George Felette, charged with assaulting tlemen might also be said to have been a Frenchman named Tasse, was also revery keen, but it was evident from the manded. start, that the great rivalry, if it might be termed such, lay between J. R. Baillie, of Aylmer, and James Smith having already more medals in his posses sion than any other athlete in America and the latter, noted for his being a' famous cricketer. The decision, however, was finally announced, and J. K. Baillie was awarded the first prize, the second having been given to James Smith.

There was but one little incident occurred, that caused some trouble, and we regret that the seifishness of some of the competitors was the means of keeping out one competitor, which can be accounted for on no other ground than that he was a stranger and o me from a distance.
