The Globe's London correspondent states | company or corporation loses anything by this country, now that the company are arise between Moss and Bickf rd men ing Col. Rhodes, and leading timber merchants of Quebec City, are men of means, whose names ought to inspire confidence in England and Canada. If they made liberal investments in the stock, which some may have done, they would contribute materially to the floating of the scheme in the London market.

It will be noticed that the President of the Grand Trunk gives rather a discourage ng account of its experience with the ine between Montreal and Quebec. We are told it has not paid, though on what some people think the warmest and best side of the St. Lawrence, and enjoying connection with United States roads, city. There is not much in the notion of a difference of climate, though connection with the States is a factor in the business calculation not to be despised. It may be present North Shore Company, whose stopping at the Russell House. nembers are old residents of Quebec knowing well its people and resources, that they have thoroughly considered the difficulties the railroad is likely to encounter. The Provincial Government has also thought of, and provided for them in years ago. the liberal grants made the Road last session of the Local Legislature, amount by Quebec city and the County bonuses, to be opened here. The appointment of the Railway is concerned. The experia city. ment of working it afterwards is another matter. The earnings for some time, unless the Roads from Montreal to Ottawa and above, created a good current of business, might not be very large. But the Northern Colonization will be built A correspondence has been going on in soon as, if not before the North Shore the London Fin noter with regard to the and the chances are that a consi-Quebec and Montreal North Shore Rail- devable through traffic may offer from the that a number of Chicago speculators have | terior roads would constitute the shortest, | criticised and in many places opposed contracted to build a second line of rail- most direct route to the Maine seaboard. but it appears to have a good deal of vital would hardly believe how men would enter and Kennebee, is only 240 miles.
