Provincial Agricultural Exhibition.

As the time approaches for the opening of the forthcoming Exhibition of the Provincial Agricultural and Arts Association, to be held in this city the week after next, the public interest in the progress of the work of altering and adding to the accommodation heretofore existing grows more lively, and a brief statement of the present condition of the grounds will doubtless be acceptable to the majority of the readers of *The Globe*.

The works were commenced about six weeks ago, under the direction of Mr. C. W. Johnson, City Engineer, assisted by Mr. George Emery, clerk of the works, and so well were the plans matured, and so ably have these gentlemen been seconded in their efforts by the various contractors, that at the present time nothing remains to be done by the city authorities except renewing a portion of the walks, when the grounds will be handed over to the Association, which will probably be done on Friday or Saturday.

The work performed by the city, in erecting buildings and providing additional accommodations, consists principally of the following:—1. Five large and commodious stables, with 54 stalls in each, equal to 900 feet in length, with a depth of 30 feet 6 in. 2. Feed boxes for 270 new stalls, and the same number for the old ones. 3. Cattle sheds 900 feet long by 24 feet deep. 4. Sheep pens 400 feet long by 24 feet deep. 5. Pig pens 900 feet run. 6. Carriage sheds 250 feet long by 24 feet wide. 7. Machine sheds 100 feet long by 30 feet wide. 8 A barn for hay and feed 37 feet long by 24 feet wide. All the buildings have been constructed of lumber of the best quality, so that they will not so soon fall into decay as those used on the last occasion of the exhibition being held here. The contractors were, in section 1, comprising the stables, cattle sheds, sheep and pig pens—Mr. Harvey. Section 2, comprising the carriage shed, hay barn, machine shed, poultry coops and general carpenter's work—Mr. Dennis. Section 3, comprising painting, colouring, glazing, whitewashing, and cleansing—Mr. Dill. Several important additions have been made to the buildings set apart for the convenience and comfort of the general public, which cannot fail to be appreciated.

The prize list consists of 59 classes, being seven more than last year, and the entries up to the present time are far more numerous than has been the case in any previous exhibition, at a corresponding period before the opening. The following are the classes specified in the list:—
