OTTAWA, WEDNESDAY, DEC. 23, 1874.

BISMARCK AND THE CARLISTS tion of the Carlists for the outrage offered to the German flag as reported yesterday. It has for some time been rumoured that Bismarck contemplated interfering actively on behalf of the ruling Spanish authorities, and with a view to exterminating the Carlist insurrection. If such were the called to Ottawa, however, and then went to case, it is probable that a favourable opportunity has now offered for him to put tal had anything to do with the trip across his nurpose into execution. What the the Atlantic, or whether the one was not THE LONDON QUARTERLY REVIEW.—New Dougherty became ill, and all remeresult might be upon the general peace of directly attributable to the other, we are Europe it would be hard to divine, but not told. When he came back again, he set there cannot be the slightest doubt that it about reforming things very vigorously, would greatly jeopardise it. Once a rupture occurred, there is just the probability ed at as they have been very generally, might only turn out too true. There is not yet the most cordial possible feeling between France and her German conquerpacifically inclined, if not what may be called bland and friendly, and Bismarck. so overbearing and tyrannical in his treatment of France as usual. But the people are by no means better disposed small spark to rekindle the flame which has been smouldering ever since the evacuation of Paris. The probable attitude of Great Britain and Russia respectively would, in case of hostile demonstrations be the subject to which the attention and anxious scrutiny of Europe and America. anxious scruting of Europe and America Railway policy. He puts it thus, and it architecture, the writer maintains that that the testator was under undue influmust be confessed that the statement is a would be directed. Recent expressions on the part of the Russian press indicate most important one coming from such a that the man who designs, should also exthat they would not be on the same side, and would probably be active participants

in opposition to each other. more in accordance with the spirit of the Brydges; but if, as is well known, I have age to hope that the future has in store for the world a long lease of peace and considerations, and with whom I was ex-

HYDROLOGY OF SOUTH AFRICA.

Mr. John Crawford, of Kirkcaldy, Scotland, has published a book entitled complain? To this I reply, that as official of the interpretation of the Rubrics, par-"Hydrology of South Africa," being details of the former hydrographic condition of the Cape of Good Hope, the causes of the present aridity of that country, and considerable as information upon of the present aridity of that country, and considerable to the interpretation of the Rubrics, particularly these prescribing the position of the present aridity of that country, and considerable testicularly these prescribing the position of the interpretation of the Rubrics, particularly these prescribing the position of the present at the communion, table. The present at the communion table. The present at the communion of the Rubrics, particularly these prescribing the position of the present at the communion of the Rubrics, particularly these prescribing the position of the present at the communion table. The present at the communion table. The present at the communion table article closes with a history of the bill recently passed for the regulation of public and examined at most leading that the deceased had duly examined. of the present aridity of that country, and any such subject had not been asked, I did the appropriate remedies for these. The not deem it to be my duty to give it. work is a compilation by John Crombie "In 1869, when, in the performance of ford has therefore made arrangements to be of an officer's inefficiency and want of how an a property of the July numsupply parcels to publishers in the could not get rid of him without being colonies on the same terms as to those within the bounds of the British against him. within the bounds of the British Empire proper. The work is likely to be followed by a treatise on "Reboisement in France," or the referesting of the Alps and Pyrenees, and mountains of Central France, with a view to under very exceptional circumstances, to prevent the destructive effects and consequences of inundations and of torrents, embodying a "Resume of Etude sur less Torrents des Haute Alps, par Alexandre Surell," with translations and copious extracts. In regard to these also, similar
