TURKEY-THE FAMINE IN ASIA

The need for help continues to be great. At Angora, 3,000 persons are dependent for their daily bread on charity. The tiovernor of the place, who is highly spoken of for integrity and energy, is doquarters of a pound of flour daily to each | \$1071; Erie 261; do preferred. heavily, and plowing and sowing are carried on apace-by those who have oxen and grain. It is hoped that if timely supplies are sent in, there will be no more deaths from starvation, and that next har-The public districts have to a large extent been depopulated, the peasants cluding 15,000 American. flocking to the towns to be near supplies of food. A person who has come recently from the interior states that he passed through a great extent of a, once populous district, and found it absolutely deserted. The vineyards of the district were laden with fruit, but as there was no one to gather it, it was rotting away. On the other hand the Government is doing what it can to send the villagers back to their homes on the strength of the promise that they will send them supplies as these come to hand. It is in the villages that we may look for the most hardship during the coming winter Cold has already set, in, and as the winter advances the want' of means wherewith procure fuel will make itself felt. Portions of Galatia are high upland, and the cold in these districts is severe in winter. The poverty of the people is great after so long a period of famine. Many who were formerly well off have been obliged to part with their jewellery and other valttables for a low price in order to exist. What, then, it is very important to understand clearly is-that much more is requisite than to save people from dying from starvation. To do even that, great done there will be still an immense amount. the misery which prevails in these regions different firms, are as follows: easion to travel through that country during the summer met two children, a boy of nine, with his sister make their way down to Smyrna, where they had relatives, in order to flee from We find above holding over. . 187,250,000 the land of death. his efforts for the famine distress, had

IRISHMEN IN ART. A distinguished historian has written Braved in a mortar for centuries, scourged by every English ministry, and traduced by almost every English writer, as Ireland has been, it is delightful to witness her unconquerable spirit, searing with immortal pinions over the proudest pinnacles of art and science owned by her heartless sister, and perching wherever she wiland coming to the domain of art, we find that Hogan was then classed with Carnova, by competent critics, for the grace and beauty of his sculptures. Old ham (a native of Dublin) was at the summit of his fame, so fairly won by his marvellous mechanical inventions. He it was who invented the intricate machines for engraving, printing, and numbering banknotes, thereby making forgery almost imossible. Without this apparatus modern panking would be a perpetual risk. Then, too, workeil Maclise, " the greatest living master of the human figure," whose frescoes adorn the English Parliament House, and one of whose pictures stands above the royal throne in the House of Lords, This Parliament house itself is a monucontinent of Europe for plans and specifications. Three hundred plans were received from famous architects. That Public School Taustens.—The retiring hours from salt water. Dying -EX-ARTERIAL, blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the recommendation. 

By reason of much that is wrong in living and medical treatment, this stream of blood flowing insensible perspiration through the skin or with the waste matter through the skin or with the waste matter through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to congulate, causing pestules, scalp eruptiens or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the artarial. nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of scood therein he congestion or pressure of glood therein This is called Inflammatoro Rheumatism of Rheumatic Gout. If nature does not succeed in washing out these scremonious atoms she with parts, ceases to contend, and performs circulation as best she can: however, the passage of the blood tarough the affected channels sti continues painful. This is Chronic Rheums tism, which may exist without its usual ante ant the Acute kind. The above only true theory points out the cordon Hospital, England, has demonstrated to the Med'cal Faculty of Europe, that the only Medizine having control over this class of dis-

DIAMOND RHEUMATIO It is the result of a lifetime of scientific study and is now or the first time offered to the Cana dian public, prepared by a careful, experience and conscientious physician. In obedience to and conscientious physician, in obsdience to the desire of numberiess friends in the profession in the trade and among the people. Every bottle is warranted to contain the full strength

of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint. A BLESSING TO THE POLICE. warded East and West in supplementary packag DEVIKS & BOLTON : GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suf-Via New York, close every Saturday, Monday fered the last five or six weeks the most terr Per Canadian Line, close every Friday at 12:05 acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick.
