NEW CITY COUNCIL. As anticipated there was no quorum of the members of the new City Council yesterday at noon This will necessitate the calling of a special meeting for organization.

THE MARKET.-Yesterday being election lay, there was little or no attendance or the part of either vendor or purchaser on the Market square. Domestic affairs were considerably upset in consequence.

ANOTHER STEAM FIRE ENGINE. - The long talked of Chaudiere Steam Fire En gine has at length been shipped from Chatham, Ont., and will arrive in the city to morrow or next day.

No Liquor to be Hab. - All the taverns were closed yesterday in response to the advertisement of Inspector McVeity. The grocer shops were allowed to remain open on condition that no liquor would be vended between the hours of 9 o'clock a. m. and 5 o'clock p. m.

Police Court.-There was only one No. case brought before the police court vesterday: Joseph Nadeau was arraigned for the larceny of a ring and some precious stones from Mr. Street of Montreal. The case was adjourned till this morning. The ring was valued at \$100. Mr. Gibb appeared for the prisoner

THE POLICE.-The police have survived the election of yesterday, having had lit- No. 10 Sub-div... tle or no occasion to exercise their authority. The Ballot and great number of colling places had the desired effect, as here were no instances of a breach of the peace. This speaks volumes for the Ontario Election Law.

CHORAL UNION .- The usual weekly practical tice takes place this evening. The firs public concert of the Society will I given in Gowan's New Opera House the first week in February, an announce ment which should stimulate the mem bers to extra exertions to perfect them selves in the pieces now in practice.

VIOLATIONS OF THE LAW.-Inspecto McVeity was looking well after the run sellers yesterday, but two natives of the Emerald Isle succeeded in getting out side of some old rye in remarkable quick time after five o'clock. In the evening they were making bright efforts to keep each other up, but one of them managed to take the measure of the real estate he will some day require for his own accommodation, and he carried home a coat well plastered with the "beautiful."

INTENSE FROST.—The intense cold of O'Donoghue's maj over Featherston. esterday, made itself manifest in many instances. Canvassers who had occasion to drive considerably, had both noses and ears bitten with frost. The application of snow with a little friction had the desired effect of removing the unenviable frost bite. The weather has | cent very severe for the last few days, and has visibly reduced the wood pile and coal supply. A change will doubtless soon follow.

A Rusur.-Rast night, while a large excitedly discussing the probable issue of the election, some one raised the cry. " Here they come," whatever that meant and a rush was made to the City Hall, Men and boys ran as if the arch-enemy of mankind was behind, and swarmed up on the pile of stones and round the old hall like dred degrees higher than it was then. The cry was a sell, however, for nothing came Dan O'Donoghue was sent up, but no Dan appeared, and the crowd had to disperse and keep their toes warm as best they could till the real state of the poll should

ise was both felt and expressed iay at the quiet appearance of the city during the election. Knowing that there were three candidates in the field, who were all expected to poll a close vote, good deal of excitement was expected and lively times as of yore at the pollin stations. But no such thing. Beyond the vehicles, there was nothing to indicate the breasts of those who were busily engaged bringing up their men, and they likely had all happy anticipations of success which the revelation from the ballot-box must have speedily dispelled in the breasts of Mr. O'LHARY'S LEGTURE.-The subject of

Mr. O'Leary's lecture at the Rink Music Hall, will embrace the following points, among others ;-" The Resources of the Dominion in the Interests of Emigration,' "The Great North West," "The Dawson Route, including the water route from Collingwood to Prince Arthur Landing," "Silver Island Thunder Bay, and the North Shore;" "The chain of Great Northern lakes, land, timber, minerals, &c., along the route, "Fort Francis and Rainy river," "the Red River Valley, its soil, grasses, crops, climate and resources generally," "The Red and Assinobine rivers, their timber, belts, navigation, &c., Winnipeg (Fort Garry), its population, and investments, together with other matters of interest pertaining to the Prairie Province." The chair will be taken by the Hon. Alex. Mackenzie at eight o'clock.

The contest yesterday was conducted in very quiet and orderly manner. A good deal of anxiety was manifested through out the day, and as it approached the close of the poll a good deal of curiosity was evinced as to the result. The Contral Committees at the headquarters of the respective candidates kept reckoning up as the different scrutineers came in, and the returns sometimes made one candidate shead and sometimes the other, un-I finally it turned out that Mr. O'Donohue led the poll by 53 votes. 'A Repository of Fashion Pleasure, and HARPER'S BAZAR ILLUSTRATED.

N stices of the Press.
The Basar is edited with a contribution of ta and talent that we seldom find in any journal and the journal it elf is the organ of the great world of fashion - Boston Traveller. The Basar commend-itself to every member of the household-to the children by droll and pretty pictures, to the young ladies by its fashion plates, in endiess variety, to the provident matron by its patrons for the children's clothes, to pater familias by its tasteful designs for embroidered slippers and luxurious dressing gowns. But the reading-matter of the Basar is uniformly of great excellence. The paper has acquired a wide popularity for the fireside enjoyment it affords.—
