AN OLD ACQUAINTANCE.-From a Windsor (Ontario) paper we quote the following paragraph: " Capt. Jos. Lee, who met with an accident some time since by which his wrist was splintered, has removed his residence from Detroit to Windsor. The Captain, who was for five years on the stage, was formerly President the Shakespearian Club of Montreal, and the citizens are getting up a benefit for him to enable him to meet the medical expenses incidental to his recent illness. On that occasion the Captain will play Heney, David, and O'Connor. Shylock, in "The Merchant of Venice," and Monsieur Jacques.

SMALL Pox.—The Marine and Fisheries Department, in order to ascertain the certainty of the reports circulated regarding this terrible disease on the Upper Ottawa, despatched a local superintentent, who has just returned, and reports ten cases anaongst the Indians on the Pickannock, all of which have resulted fatally. PPLETONS AMERICAN CYCLOPZEDIA NEW REVISED EDITION. Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engrav

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA WAS COMpleted in 1863, since which time the wide circulation which it has attained in all parts of the science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPADIA. Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative The movement of political affairs has kept pace with the discoveries of science, and the ruitful application to the Industrial and usef arts and the convenience of refinement of social fife. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last clume of the old work appeared, has happ been ended, and a new course of commerce and industrial activity has been commenced. Large accessions to our geographical know edge have been made by the indefatigable ex piorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's month, and of whose lives every one is curious

cessor, but with a far greater pecuniary expen-diture, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edifion have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and temperatures of science of science and of natural history, and depict the ery, architecture, and art, as well as the various although intended for instruction rather than y will find a welcome reception as an admir-e feature of the Cyclopedis, and worthy of its

This work is said to subscribers only, payable on delivery of each volume.
