OTTAWA, FRIDAY, FEB. 19, 1875. MILITARY TRAINING.

It is perhaps not practicable to entirely to provide against that worst of contin-Cameron, of South Ontario. This gentleman on Monday last committed himself serve to be, but none the less sound on that account. He expressed himself substantially to the effect that it is wrong to give to the children a military training. give to the children a military training; the canal and lake. The estimates last forward the work, and he was satisfied properly dismissed that one of the worst uses to which a man year promised \$75,000, out of \$260,000 with the assurance his hon. friend [Hon. can be put is to make a soldier of him; that Canada is indefensible against the \$75,000 additional for this year, Government. He trusted there would be the motion, but the hon. gentleman had United States; that instead of fostering or \$15,000 altogether, for a beginning no further unnecessary delay. Many hon, was not set slown in this year's estimates, so that the work might be at once enter-love and universal brotherhood should be national mis inderstandings should be people of Nova Scotia, one of the grounds, as much for some of them as it had done admit of an immediate reply. He thereprovided for by arbitration rather than by resort to arms. This somewhat plain declaration of his honest sentiments by a templated works would be entered upons resources of Cape Breton, and the value of that country to the Dominion, but they found of that country to the Dominion. If more candid and outspoken gentleman whether we can agree with him or not, we think is to be commended. We are bound to say that there is nothing in this profession of faith by the member for ance. He trusted this important work overlooked in regard to its public works, pointed in his stead. Upon this motion South Ontario to cause surprise and much

less to give alarm. We have heard all these startling scientific attainments and who had con on this subject, he doctrines before, and we have found as tributed valuable information on geology, to enter into any discussion of the claims faithful subjects and as good neighbours Murchison and Sir Charles Lyell; and promotion of such undertakings. But he take one side as the other. Yet news he mentioned these facts to show that he congratulated the people of that section paper writers are splurging in remon. was a high authority the following of Nova Scotis upon the favourable ex strance and ridicule, and some very few aiding the bunkum side of their loyalty, Cape North, the coast line exhibits steep action taken by the Government in the all because one member has had the ascents covered with scrubby spruce and matter would be such as the wants of the courage to say in Parliament what is from the sea to heights varying from 600 trade and commerce imperatively decommonly said and largely believed in to 1,200 feet. Grand and very beautiful the country. Mr. Cameron is in advance are the gorges and ravines which furrow of the age; that is the only argument that i can be used against his position.

CANADA'S OPPORTUNITY.

Every true Canadian must have felt his grand and picturesque is the red Syenific face glow with a feeling of shame and escarpment of Smoky Cape, cap appointments to, and resignations and indignation when he read the report ped with the cloud, from which dismissals from office in the County of that our rich natural wealth and lands in the background, and the peak of ber, 1873, as well as all letters, petitions, the Vienna Exhibition by a few bottles above, the far distant horizon. On the or in connection with said appointments, of seal oil and a parcel of furs. No act Western coast, from Cape St. Lawrence to Margarie, scenery of a similar character ments of successors. could be more injurious to the welfare of occurs; but it is the setting, not the He continued to say that his object Canada than that of refusing to send rising sun, reveals all its hidden beauties." asking for the papers was to bring to the specimens of our mineral resources and As great ignorance prevailed on this fine notice of the House the unworthy and manufactures to that World's Fair, so that the working people of Europe could judge of the prospects of employment and ultimate independence should they emigrate to our shores, while at the same grate to our shores, while at the same of the prospects of employment and ultimate independence should they emigrate to our shores, while at the same of the prospects of employment and ultimate independence should they emigrate to our shores, while at the same of the prospects of employment and ultimate independence should they emigrate to our shores, while at the same of the prospects of employment and ultimate independence of the prospect of the prospec time capitalist- could estimate the secu- continent. The hon. gent. concluded by the House of Commons, and to obtain known that the subject had been under rity afforded for a safe return for money moving in accordance with previous no such an expression from this House as the consideration of the Government loaned to our people. A few specimens of minerals and half a dozen sewing machines sent to Vienna would have effected vastly more benefit than the reports of special commissioners of the Witton starm. For this neglect to pro motion. He did not think but a duty he owed to the men so griev department publishing its own statistics

Fortunately the present Liberal Govern. who seek rather to promote our welfare than to find jobs for worn-out political than the find jobs for worn-out hacks. As might have been expected from such an Administration, steps have it. At Sydney there were immense destant to land on it. more accurate than they usually are. been taken to have Canada adequately posits of coal, there was a magnificent Whilst thus waiting for weeks for that There was a good deal also in many of the heart of Cape Breton, running down to meet the probable expenditure required in connection with having Canada, for the presented at Philadelphia, and it is understood that Senators Wilmot and Penny and Mr. W. F. Gien will attend as Commissioners. Large as the grant may appear, it will prove one of the most remunerative outlays ever made by the Canadian people; and it must be remembered that the figures do not represent an increase to the most an increase to the most an increase to the another persons and the supposed, pounding and expenditures, for by judiciously pruning the Departmental and a sum of \$10,000 appears in the Estimates of the season of th
