SABBATH SCHOOL PAPERS.—The Christian at Work Co., in addition to *The Christian at Work*, issues also five smaller monthly papers for the Sabbath school and Home, which are handsomely illustrated and are under the editorial supervision of the Rev. Dr. Talmage. They are evangelical and non-sectarian, and supply an important place in the field of Sabbath-School literature. The low rates at which they are sold make them accessible even to schools whose resources are restricted. The publisher, Horatio C. King, No. 102 Chambers street, New York, will be happy to furnish samples of all the papers and full particulars on application. 3800

HORSES SAVED.—The lives of thousands of horses have been saved during the past year, and the credit is due to "Dailey's Condition Powders and Arabian Heave Remedy." This preparation is being extensively used, and exacts from all the highest praise. Nothing of the kind has ever before been half as successful, or given such universal satisfaction; it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers. 3796

PAIN-KILLER.

After thirty-five years trial, it is still receiving the most unqualified testimonials to its virtues from persons of the highest character and responsibility. Physicians of the first respectability recommend it as a most effectual preparation for the extraction of pain. It is not only the best remedy ever known for Bruises, Cuts, Burns, &c., but for Dysentery or Cholera, or any sort of Bowel complaint it is a remedy unsurpassed for efficiency, and rapidity of action. In the great cities of India, and other hot climates, it has become the standard medicine for all such complaints, as well as for Dyspepsia, Liver Complaints, and other kindred disorders. For Coughs and Colds, Canker, Asthma, and Rheumatic difficulties, it has been proved by the most abundant and convincing testimony to be an inevitable medicine.

It is used Internally and Externally.

Thomas' Eclebior Electric Oil—Worth Ten Times its Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity a lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from the different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical. J. Collard, of Spart, Ontario, writes: "Send me six dozen Dr. Thomas' Electric Oil. Have sold all I had from you and want more now. Its cures are truly wonderful." William Maguire, of Frankville, writes: "I have sold all the agent left; it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes: "Please forward six dozen of Thomas' Electric Oil, I am nearly run out; nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes: "Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, write: "Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes: "The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P.Q., write: "Send us one gross Electric Oil. We find it takes well."

Sold by all medicine dealers. Price 50 cents.

APPLETON'S
AMERICAN CYCLOPÆDIA.
NEW REVISED EDITION.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to a new and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the consequence of refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in Composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to secure a high artistic excellence; the cost of their execution is enormous, and it is believed that they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

This work is sold to subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood engravings, and with numerous colored Lithographic Maps.
