THE SUN.

Daily & Weekly for 1875

The approach of the Presidential election gives unusual importance to the events and developments of 1875. We shall endeavour to describe them fully, faithfully and fearlessly.

The Weekly Sun has now attained a circulation of over seven thousand copies. Its readers are found in every State and Territory, and its quality is well known to the public. We shall not only endeavour to keep it fully up to the old standard, but to improve and add to its variety and power.

The Weekly Sun will continue to be a thorough newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always, we trust, treated in a clear, interesting and instructive manner.

It is our aim to make the Weekly Sun the best family newspaper in the world. It will be full of entertaining and appropriate reading of every sort, but will print nothing to offend the most scrupulous and delicate taste. It will always contain the most interesting stories and romances of the day, carefully selected and gitly printed.

The Agricultural Department is a prominent feature in the Weekly Sun, and its articles will always be found fresh and useful to the farmer.

The number of men independent in politics is increasing, and the Weekly Sun is their paper especially. It belongs to no party, and obeys no dictation, contending for principles and the election of the best men. It exposes the corruption that disgraces the country and threatens the overthrow of republican institutions. It has no fear of knaves, and seeks no favours from their supporters.

The markets of every kind and the fashions are regularly reported.

The price of the Weekly Sun is one dollar a year for a sheet of eight pages, and fifty-six columns. As this barely pays the expenses of paper and printing, we are not able to make any discount or allow any premium to friends who may make special efforts to extend its circulation. Under the new law, which requires payment of postage in advance, one dollar a year, with twenty cents the cost of prepaid postage added, is the rate of subscription. It is not necessary to get up a club in order to have the Weekly Sun at this rate. Anyone who sends one dollar and twenty cents will get the paper, postpaid for a year.

We have no travelling agents

THE WEEKLY SUN.—Eight pages, fifty-six columns. Only $1.20 a year, postage prepaid. No discount from this rate.

THE DAILY SUN.—A large four-page newspaper of twenty-eight columns. Daily circulation over 130,000. All the news for two cents. Subscription, postage prepaid, 55 cents a month, or $6.50 a year. To clubs of 10 or over, a discount of 10 per cent. Address,

APPLETON'S

AMERICAN CYCLOPÆDIA

NEW REVISED EDITION.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1864, since which time the wide dissemination which it has obtained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their faithful application to the industrial and useful arts and the convenience of refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whom every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every progression in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new work, while with the same system of classification and nearly the same proportion of the subjects, it has been enlarged to about double the matter contained in the former editions. The additional matter has been put in type at a large pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to secure their artistic excellence; the cost of them is enormous, and it is believed that they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

This work is sold to subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood engravings, and with numerous colored Lithographic Maps.

The Hon. Edward Blake will arrive in the city to-day.

Chief Justice Dorion leaves town to-day for Quebec.

The Hon. Mr. Geoffrion has left for Quebec to reorganize the Culler's office in that city.

Lieutenant General O'Grady Haley, Administrator of the Government, entertained the members of the Cabinet to dinner last night at the Russell House.

The late Lieutenant Governor Crawford will be interred to-day with a public funeral, given him by the Ontario Government.

At a meeting of the Kingston Bar, held yesterday, resolutions of condolence to the widow and family of the late James O'Reilly, Q. C., were unanimously adopted.

The nomination for South Simcoe in the Local election took place yesterday at Bradford. The Hon. William McDougall was nominated in the Tory interest, and Mr. George Dunwoodie was the Liberal nominee.

Hon. Mr. Letellier de St. Just and Mr. J. E. Perreault, Secretary of the Centennial Commission, have gone to Toronto, Hamilton and other cities West. They intend visiting Cincinnati, and returning by way of Philadelphia and New York.

Hon. Sydney Smith, Q. C., in his capacity of Inspector of Registry Offices for Ontario, visited the city and county registry offices, both of which he inspected closely. He found the papers and books kept creditably by Messrs. Sherwood and Burritt, which, he said, enabled him to classify their respective offices as second to none in Ontario. It is the hon. gentleman's intention to visit the different registry offices in the Ottawa Valley within the next few days.

notwithstanding the interruption on the W. P. R. Reline in the Rocky Mountains.

Over 1,000 car loads of freight were detained by the freshets, which are now being moved to their destination.

A new section of sixty miles has been added to the Southern Pacific Railway, extending from Bakersfield to Caliont, 324 miles from San Francisco, at which juncture stages connect to Los Angelos, one hundred miles, and the mining regions at Arrid Gooded, and pavement rails will be laid contiduous to Los Angelos and from there to Fort Yuma and nearly to San Diego by next year, a distance of 720 miles.

The Pedestrian Feat.

Weston started again this morning on his second attempt to walk 515 miles in six days. He thinks to score 96 miles up to midnight.

CHICAGO.

Suspension of Stone Shipments.

CHICAGO, May 17.—A Cincinnati special says Muller's quarry at Buena Vista, also the river which furnishes stone for the Custom House is silent. Miller has been ordered from Washington to stop work in the quarry, and suspend further shipments of stone to Chicago. A big row seems imminent.

The Lumber Market.

The lumber market is [illegible] crowded with laden vessels. About [illegible] cargoes have come in during the last twenty-four hours. Shipowners are still holding out for four cents for corn to Buffalo, and one vessel was laden with 28,000 bushels at that figure. The local market was considerably strengthened by the breakage at Milwaukee harbour. The vessel was taking wheat at four and a half cents.

Bank Statements.

The published statements of the National Banks show that there has been an increase of $3,500,000 in loans, and an increase of $1,860,000 in deposits, and increase of capital surplus of $125,000. Since March the first, there has been a visible decrease of capital during the year of $404,000, owing to the closing up of the Cook County National, and Mechanics National Banks. The decrease in circulation since Februrary 28, 1873, is estimated at about 50 per cent. In that month and year, the circulation was $6,925,535; and now it is estimated at $3,035,727. The Corn Exchange, the National, the Commercial National, the Bank of Illinois, the City National, the National Bank of Commerce, the Fourth National and the Home National now have their circulation reduced to the limit allowed by law. There has been a corresponding increase in the amount of bonds deposited with the United States Treasurer.

The Whiskey Frauds.

There are no new features in the matter of distilleries' seizures, but no doubt there will be before the end of the week. It seems to be a settled fact that the Supervisor of Internal Revenue for this district, is to be superseded; not because of any known mal administration on his behalf, but because the Secretary of the Treasury has determined on a thorough reorganization of the Internal Revenue workings of the districts.

WASHINGTON.

The Court of Claims

WASHINGTON, May 17. Considerable anxiety is felt among a large class of persons to know what the decision of the Court of Claims will be in the Pacific Railway case, on which an opinion is looked for to-day. It is generally believed, however, that the case will be decided in favor of the road. A few claiming to have information say that the decision will certainly be in favor of the Government. In the event of the controversy not being settled, the Supreme Court will have jurisdiction of the case on appeal, and it will certainly go to that body for final adjudication. Past experience has shown that an opinion by the Court of Claims is not likely to be sustained by a higher court without the closest examination, and whatever may now be the decision in the case, it is as likely as not to be reversed hereafter.

The weather has been [illegible] formed in this city and neighbourhood during last night.

CINCINNATI.

The Central Convention.

CINCINNATI, May 17.—The city is filled with delegates and visitors. Yesterday was devoted to speeches of welcome and responses, and in the afternoon a grand procession with fully 12,000 people in line. The city is beautifully decorated with flags, banners and mottoes. Triumphal arches are thrown across the streets in front of most of the Catholic institutes. Every Catholic church bears the star spangled banner at the top of the steeple. Bishop McQuade, of Rochester, N. Y., delivered an address last night and the regular business of the Association commenced this morning at Mozart Hall. The society was called to order by the President, *pro tem*, Spaunhurst, of Missouri, and it is proceeding with the the regular routine business.

DES MOINES.

Parties Arrested

DES MOINES, May 17.—Officers from Stony City arrived here last night and arrested Daniel Kinkman, a son of the man who was hanged a few days since, and William Seinsmaster, his son in-law. It is said enough evidence has been secured by the Coroner to lead to the conviction of the parties guilty of the murder.

MILFORD.

Daring Burglary.

MILFORD, Pa., May 17.—Desire Bonanique's watch case factory in this place was broken into on Saturday night. The safe was blown open and silver coin and watch cases to the amount of $25,000 stolen. No clue to the burglars have been obtained. A hammer and cold chisel and other tools were found near the safe, marked "Port Jarvis Shop Railway." It is thought the robbery was committed by local thieves as the work was done in too bungling a manner for experts.
