## To French Compositors.

THREE French Compositors WANTED
—AT THE—
GOV'T PRINTING OFFICE,
Wellington Street.

## To the Independent Electors
—OF THE—
## COUNTY OF OTTAWA.

GENTLEMEN,—

The powers, with which you honoured me as your representative, having expired, you will shortly be called upon, under the Constitution, to exercise the elective franchise in renewing them. A large number of electors have requested me to again solicit a candidature, and, having served you faithfully to the best of my ability, and not being conscious of having violated, in any way, the trust reposed in me, I come forward to ask a renewal of your confidence, and to solicit your suffrages at the ensuing election.

During the time I have represented this county, many changes have taken place, and they have all been in the way of progress. The increase of industry has greatly augmented our population, and commerce; manufactures and agriculture have largely increased by their combined influence. The comfort and material happiness of all classes, it has been my good fortune to obtain large grants of public money, which have been expended in colonization roads and other improvements, calculated to give remote settlements access to the best markets for their produce. Over twenty-five thousand dollars of public money have been laid out in this way, and have produced most beneficial results. I have also, with other patriotic representatives, had the privilege of devoting my utmost exertions to promote the construction of a railroad on the north shore of the Ottawa, which, commencing at Quebec, will extend through Montreal to Aylmer. This road by-law is to be completed before the close of the present year; and no doubt a continuance of the same patriotic policy on the part of the Government, will enable your next representative, on retiring from office, to congratulate you upon the completion of this line to Georgian Bay. This will make the Valley of the Ottawa the principal channel through which the rich products of North Western America will seek the markets of Europe, and will enrich the whole region through which it will pass, with the arts and comforts of civilized life. If elected, it will be my pleasing duty to support in Parliament every measure for these and kindred objects.

I have no hitherto noticed the diatribes and abuse of certain parties relative to the charter of Hull. The business of such people is agitation. To excite class against class, creed against creed, and one nationality against another, is their means of action. Their personal interests is their object. To bring themselves into notice even though it be upon the ruins of the peace of the community, is what they desire. If I had offices to give these people or gold to pay them, they would flatter me as much as they have abused me. To them I will not deign to reply. But to my old and tried Catholic friends, I can say, with the full conviction that they will believe me, that at the last meeting of the Council of the Township of Hull, it was agreed that the provisions with respect to schools in the Municipality should be governed by the law of Montreal and Quebec; and when I confided it to Mr. Bellingham, I instructed him to see that this understanding was carried out. As, however, there are clauses in the act which bear harshly on the Catholic population, I sincerely regret that these features were not rejected before the act was passed. As it is, I will if so elected, lose no time in having these defects removed. In short, I can assure all, regarding the interests of the people of Hull, I can only point to my record, my labours and the confidence that surrounds my home, and weigh my services with those of many ventures, who, with an eye on this election, have for months, been stirring up strife amongst us.

As an independent man, I have heretofore supported only the measures which in my judgment promoted the public welfare, caring very little for political theories. Should I be elected I will follow the same course, and shall always be found on the side of the men and the measures that tend to practical legislation, to the development of the Ottawa Valley, and the development of its resources. I think that even my opponents will admit I have some interest, and have shewn some practical sympathy in this direction.

If a stream of industrious immigration could be directed to this county, it would largely contribute to its prosperity; and I will use heretofore my best exertions to that end. I feel that those who, having got into a good thing, would close the door to comers of any nationality. But in my opinion the best way to promote immigration is by building up our manufactures, and by a persistent prosecution of waterpower public utility, that will give high wages to the labourer and good market to agriculturists,—by giving manufacturers good laws, and capitalists to understand that they are in every sense to participate in the privileges of British subjects. To do this we must transfer our every resident of the country, without any exception, that would exclude any class of industrious population, to record their votes for me at the election, and to believe me, whether in public or private life, their

Obedient Servant,

ASSETS OVER $10,000,000
DEPOSIT AT OTTAWA, - - - - 120,000

This Company, whose Agency in Canada was established in 1867, and whose income in the Dominion is nearly $300,000 from premiums alone, is prepared to receive applications for the General Agency for the Ottawa District from competent and trustworthy parties, who can make the business a specialty and give it their entire attention.

Address with references and experience, if any,

SIMPSON & BETHUNE,
Managers for Canada,
Montreal.

The Canada Copyright Bill has passed the House of Lords.

Six hundred Mennonite immigrants have arrived by the *Moravian, en route* for Manitoba.

Hon. Mr. Fournier went to Caledonia Springs on Saturday afternoon by the *Queen Victoria.* He is expected to return this evening by the *Peerless.*

The petitioners in the South Renfrew case have been advised by Messrs. Cockburn, Wright & Clemow, of Ottawa, that the Judge has appointed the trial to come off at Renfrew Village, on the 21st September next, and not the 21st December as at first reported.

Three thousand persons are estimated to have perished in the French floods, and the money loss is calculated at three hundred million francs, or about fifty million dollars. The Pope subscribed four thousand dollars to the relief fund, and the Duke D'Aumale five thousand.

A New York exchange says: The 1st of July is celebrated in Canada as a nation al holiday, in commemoration of the formal establishment of the Dominion. It is nine years since the act was completed, and during that period the country has made rapid progress in consolidation and development. In almost every part and form there are indications of growth and prosperity; and on the celebration of Dominion Day, the inhabitants of Canada have greater cause than ever for congratulation.

The following is from the *Scottish American Journal*:—The Premier of Canada, the Hon. A. Mackenzie, now on a visit to Great Britain, is honored with very gratifying marks of respect from public men and bodies. The authorities of Dundee have resolved to offer him a banquet in July, and at the same time present him with the freedom of the city. The honor is well merited, and will be highly prized. As an individual Mr. Mackenzie is worthy of the attention he receives; and any honor conferred upon him is a compliment to the country of whose Government he is the head.

The *New York World* says:—We learn on very good authority that there is no truth whatever in the story that the Princess Louise and her husband, Lord Lorne, intend to visit the "Dominion" this year. The accomplished and popular Governor-General of Canada, Lord Dufferin, will return with his wife in September, but the loyal "Kanucks" will hardly have an opportunity this year to acclaim a princess of the House of Guelph. Nevertheless it seems to us high time that the daughters of Victoria should have an opportunity, like their brothers, of seeing something more of the world than Balmoral, Osborne, London and the capitals of all the Serene Transparencies.

DIED.

In the City of Hull, on Saturday afternoon, the 3rd of July inst., Mrs. Marie Louise Valeria Frechette, beloved wife of Mr. L. H. St. Dennis, of the Department of Agriculture, aged 30 years, 3 months and 7 days.

Funeral will take place in Hull this morning (Monday) at 9 o'clock a. m. Friends and acquaintances are respectfully requested to attend.

BOUCHER—In this city, on Sunday, 4th inst., Elisabeth Angelle, youngest daughter of Mr. Ovesime Boucher, aged 2 years and 4 months.

MONTREAL.

Steamboat Accident—Baie Verte Canal—Mennonites—New Propeller—Robbery—Money and Stock Markets.

MONTREAL, July 3.—Yesterday morning as the tug *Ignatius Tyler* was passing Point-aux-Trembles, the strap attaching the connecting rod to the crank gave way, and as the full power of the steam was released from its work it caused the piston rod to fly backwards, knocking the end out of the cylinder and scattering pieces of iron in all directions. The crew almost miraculously escaped, save the engineer, who was slightly injured. The steamer was used in towing lumber between Brockville and Brockville and Quebec.

The Commission to enquire into the Baie Verte Canal scheme met yesterday and elected Hon. J. Young, President. Maps and plans were presented, and it was resolved to go on with the canal as speedily as possible. Mr. Jack, of Halifax, was unable to be present.

Six hundred and fifty Mennonites, who came out in the s.s. *Moravian*, passed through the Tanneries this forenoon on two trains, *en route* for Manitoba. They were respectable in appearance, and are said to bring with them £80,000 sterling in cash and its equivalent.

A fine new propeller is being fitted with a 50 horse power engine in the canal basin by Messrs. Foster & Storey, of Smith's Falls, Ont.

An audacious robbery of a cash box containing a small amount of money and several hundred dollars' worth of promissory notes, was perpetrated yesterday afternoon on Mr. Murray, wholesale book seller, of Notre Dame street.

There is no decided change to note in the money market. The banks are said to have a good deal of money, but they are inclined to pursue a conservative policy, and hold on to it until they see how commercial men meet the bills falling due during the next three or four days. There is, however, a better and more hopeful feeling in the market. Commercial paper is discounted at a general rate, of 9 per cent., and stock loans have been made this morning at 8 per cent. on strict call, and 9 per cent. on five days' notice.

Sterling Exchange is firm, with sales at from 109 to 109½ between banks.

The stock market was generally higher, and closed strong, there being some demand for investment, caused by payment of dividends and otherwise. Merchants' closed at 101 to 101½; Telegraph, 159 to 160; Montreal, 185½ to 186; Quebec, 105 to 106½.

The flour market is firmer, but with only a light business. Sales, 300 extra at $4.65; 100 do. at $4.75; 270 strong bakers', at $4.40; 100 do. at $4.45; 100 do. at $4.50; 100 do. at $4.55; 500 medium strong spring extra at $4.35; 500 city brand do. at $4.42½; 100 superfine at $4.20.

NORTH GREY.

OWEN SOUND, July 3.—Judge Gwynne gave the following decision at 12:45 yesterday afternoon:—"Held that the agency of Dr. McGregor and Geo. Wright was not established; that the evidence of Jas. Atkins as to the promise of a dinner by the respondent was fully refuted, and that the respondent could not be held guilty of corrupt practices on account of the treat by Robert Paterson." The learned Judge dismissed the petition with costs to the petitioner, but will report several persons for corrupt practices.
