veller used by Messrs. Booth & Murphy at the construction of the main pier, and Captain, now laid out on Friday last. Because of the inclemency of the weather, will be completed, and new sports inaugured. In the evening they will have a grand entertainment in the O'Meara House.

Ingles, the famous American Dr. Debont, the famous American Dr. Debont, who has had an interview for a short time in the Alton Hotel. The Quebec Chronicle in speaking of him, says—This is the last day of Dr. Debont's stay at the Masonic Inn House, so hurry up and get your cure out, and your feet general, alive. The relief that is afforded by the Doctor is simply wonderful; his fees on feet are undeviated.

THE ST. PATRICK'S LITERARY ASSOCIATION.—On Thursday next the St. Patrick's Literary Association will hold their annual picnic on the Minto Hill, after the games and entertainments are over on Friday last. Because of the inclemency of the weather, will be completed, and new sports inaugured. In the evening they will have a grand entertainment in the O'Meara House.

MEMORIAL.—Reverend Sister St. John gratefully acknowledges the receipts of \$20.00 from the merchants of Sussex and Rideau streets, this sum being a return of street watering moneys towards the funds of the General Hospital.

CAME TO GUIDE.—A man on Friday, driving a load of bricks over the Dufferin Bridge, sought to accelerate the speed of his horse by pulling him with some of his load. The horse resented such treatment, and the driver, in his efforts to give the driver the trouble to re-ship his cargo, said he would not whip his horse with brick bats any more.

THE CIRCUS BOARDS.—The agent of Farnham's Circus was considerably ex-ecuted. Thursday at the Centennial Committee room through his billboards to make good his name and credit. However, considering the occasion, he soon recovered his good humor, con-

tent, no doubt, that the circus had already been well advertised.

THE MUNICIPAL.—A large street is now in a most cut and dried state. The work of excavating for the drain is being pushed through that thoroughfare very rapidly. Some fine stone quality has been laid down at the upper end of the street for use in its construction, and a couple of weeks will see the undertaking completed up to the wash.

THAT PERSON.—Since the unfortunate man Nash, who died on Saturday from the effects of the injuries he sustained by falling over on Spark's street, was never seen before being updraken by the Corporation for more than a week in order to prevent a recurrence of similar accidents—it accident it was. The place is in a most unprotected state, and this is the second fatal occurrence at the same spot.

GRACIOUS ROYAL VISIT.—Hoover.—Mr. Thomas Patterson has been awarded the contract for the supplying of the gas series for the Protestant Hospital during the ensuing year. The samples he exhibited were of superior quality that little competition ensued. The judges, however, were unanimous in their verdict that the highest quality of gas was produced by Mr. Patterson, and complimented him upon the class of goods he submitted.

RECEIVED SENTENCE.—Alex. Raymond and Antoine Lahaise were arraigned before Justice Lyon on Saturday on the charge of stealing a stamping machine and other articles from the Government workshops. It will be remembered that a few days ago they were committed for trial by the Police Magistrate. Raymond was sentenced to twelve months' imprisonment at hard labour in Central Prison and Lahaise to enter to one month in gaol.

PHILADELPHIA CENTENNIAL.—Mr. Alderman Waller, in his capacity as acting Mayor, has received, from Mr. Fraser, Secretary of the Advisory Board in connection with the representation of Canada at the World's Fair to be held at Philadelphia next year, a letter which will probably be acted upon, asking him to call a meeting of the manufacturers, lumbermen, and agriculturists of this district, to consider the best mode of representing the Ottawa Valley at the approaching Centennial exhibition.

A NARROW ESCAPE.—On Friday a child about 6 years of age named Wilbraham, whose parents reside on Chapel street, had a narrow and almost miraculous escape from serious if not fatal injuries. It seems that his younger brother was leaning out of a two-story window when he was suddenly struck by two men who beat them severely, and as he assails, stabbed him in several places, but he was not able to identify the assailants. The idea of foul play appeared yesterday to have been attributed to the injuries he received accidentally, as shortly before he fled he did not know nothing of being beaten, all he did know was that he had fallen over the cliff. He was perfectly sensible up to the time of his death. The inquest was adjourned until four o'clock this afternoon.

## Holiday for everybody.

The great moving bazaar of wonders—the fair collection of sights and scenes gathered (gathered from all cities and all lands) that ever made the tour of this country here. It has electrified the people of other states. And now, after an absence of nearly four years, this prince of travel exhibitors is with us again. Come out and see this world renowned circus, and its street display will give some little idea of the bewildering exhibition under the roof of a gentleman who aspires to the title of a gentleman cannot be too severe.

REMEMBRANCE.—The Rev. Father O'Reilly delivered a very interesting address to the Irish Catholic Temperance Society last evening in the St. Patrick's Hall. A large audience was present to listen to the Reverend gentleman's discourse, which was of a most instructive character. The Rev. Father May Judge Ross and Alexander Heneage Weller occupied seats on the platform. After the address a collection was taken up in aid of the Rev. President's House of Refuge for Outcasts. It is understood that the collection amounted to a very neat sum.

A GENTLEMAN.—Tom Stealer.—On Thursday last Mr. George Little lost a black and white spaniel under circumstances which are not creditable to the principal actor therein. A gentleman (?) who was passing along Marion street espied the animal and, thinking he was unowned, he took it home and knew the owner. The dog was a Dalmatian and was the property of Mr. D. Dewe, a jeweler, who resides in the same house. The dog was captured and known the perpetrator of the theft. The least thing he can do is to restore the dog to the rightful owner in order to escape unpleasant results. Such conduct on the part of a person who aspires to the title of a gentleman cannot be too severe.

REPROVED.—Some people think it is no harm to steal a dog, as if they can do so without being found out.

FIRE ON DALY STREET.—About seven o'clock Friday evening the residence of the Hon. Mr. Cartwright on Daly street was struck by lightning and set on fire. The alarm was sounded from Box 34 at the corner of Daly and Sparks street by Mr. Brewer, a messenger in the Customs Department, when the reels turned out and were soon at the scene of the fire. It was not long before a number of streams were brought to bear on the flames. Both the residence of Mr. Cartwright and Dewe adjacent thereto were completely flooded, causing considerable disatisfaction. The cause of the fire was the burning of the roof of Mr. Cartwright's house, although considerable loss has been entailed by the flooding of the premises with water. The case was adjourned at about \$2,500.

RICHARD DOLAN.—Richard Dolan was charged with a breach of the peace. He was fined \$10 and costs.

POLICE COURT.—Before M. O'Gara, P.M.

JOHN KILKORN was charged with being drunk on the public highway. He had the option of paying a fine of \$2 and costs or to go to jail for two days.

THOMAS HUGHES on a similar charge was discharged.

Wm. Richardson was also arraigned for a breach of the peace, and was relieved of \$1 and costs.

DR. JAMES LANDRELL was charged with using abusive language. He was fined \$2 and costs.

Marie Belanger, Mathilde Belanger and Emilie Lebeau were up for assaulting Bill Hartington. The case was adjourned till Monday.

Louis Gourdin for assaulting one P. Poulin, was sent down for trial.

Henry Foster was charged with obtaining goods under false pretences. The charge was not maintained and the prisoner was discharged.

Eugene Bureau was arraigned for discharging firearms in the public streets. He was fined \$3 and costs.

WALKING MADE EASY.—Those who suffer with corns, bunions, inverted toes, and other diseases of the feet have now an opportunity to have their sufferings alleviated by Debont, the famous American Dr. Debont, who has had an interview for a short time in the Alton Hotel. The Quebec Chronicle in speaking of him, says—This is the last day of Dr. Debont's stay at the Masonic Inn House, so hurry up and get your cure out, and your feet general, alive.

The relief that is afforded by the Doctor is simply wonderful; his fees on feet are undeviated.

ATTACKED BY BEARS.—A most melancholy tragedy occurred in the township of Ripon, some distance back from Picton, last week, that brought grief to the heart of every person in the family.

The name has not yet transpired, but the facts are nevertheless fully established. It would seem that the mother

sent a couple of boys out to the adjacent woods to pick some cedar branches, with which to make a screen, without being absent from home.

Her son, a small boy, who was with her, had no attack, it is said, and went to bed.

He was not yet asleep, and in consequence

the mother got very uneasy and impat-

ient. She went to bed, and which is the best effect.

No one should be without it.

I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally good for horses as for man."
