with a brush, "no neither cracks in, winter nor runs in summer.

In deceased shingles it fills up the holes and pores, and gives a new substantial roof that laste for years. Curied or warped shingles it brings to their places, and keeps them there. It fills up all holes in left roofs, stops the leaks, and although a slow dryer, rain will not affect it a few hours after applying. As nearly all paints that are black contain tar, be sure you obtain our Genulue Articles, which are chocolate, purple, dark slate, red, bright red, orange or maroon. The chocolate colour changes in about a month to a uniform state colour, and is to all purpose, slate. On the rofs our red colour is usually preferred, one coat being equal to five of ordinary paint. For brick walls our bright red is the only reliable slate paint ever introduced that will affectually prevent damphess from penetrating and discolouring the plaster. ALL OUR PAINTS ARE MIXED READY FOR USE.

EXTRA RUBBER FELT For ready roofing for flat roofs, requiring no tar or gravel, rozin-sized, vermin proof and tarred sheeting, ready flat roofing, capped and painted, makes cheap and DURABLE ROOF.
