OFFAWA, SATURDAY, AUG. 13, 187/

We are pleased to learn that the above Company, formed by W. H. Walker, Esq. recently in England, are entering upon active operations under circumstances so favourable as to guarantee success. The necessary buildings, saw mill for the pre paration of lumber to be used by the Company, factors, office, workshops and dwellings, are being put up as rapidly as possible, and the Company hope that by glously beaten. the month of January next they will be in a position to commence the manuficture and preparation of allief the various grades of Plumbago stock

The great mineral wealth of the Ottawa Valley is very little known or appreciated, and we had with pleasure every step taken for its development. The Plumbago taken from the mines of the above Company has been submitted to the severest test, both in England and the United States, and it has proved itself superior to any now known in the markets of the world. The Plumbago heretofore in use has been drawn from Ceylon, but it is now reported that a supply of prime quality is unobtainable. We call the attention of our readers to our article taken from the Mining World, appearing in stating that a portion of 1,000 shares stock of the Company, reserved for Canada, are now offered, application to be made of Sunday, the nature of its authority, and tor. We are informed that the Company intend exhibiting both the raw material and its products at the Provincial Ex hibition, and also at the Philadelphia Centennial, and from what we know of the quality we are persuaded it will be with out a rival. Flumbago has many uses and new ones are being discovered constantly, amongst which are crucibles, retorts, lead pencils, crayons, electrotyp ing stock, lubricating stock, stove polish, founders' facings, plano and organ builders' stock, &c., &c. The Company will give employment to a large number of men, as in addition to mining the ore they intend to manufacture crucibles, pencils, &c., largely.

## THE RESULT IN RUSSELL

As soon as the news got out that Mr Alderman Rocque had in some way be come the Reform Candidate for the repre sentation of Russell, we declared that for reasons which seemed good to us we had great fears as to the result. The result is now, at the moment of our writing, before us, and it presents Mr. Rocque in a minor ity of six hundred and one votes. Our fears, it will be admitted, were well founded. It would be affectation or our part to pretend indifference as to the result. it was our strong desire that a Government supporter should sent from Russell that led when Mr. Rocque's candidature was first amounced, to criticise it with some severity. By the aid of such light upon the subject as we could command we saw, and we said in plain terms

a mistake had been made. It was fest to us that Mr. Rocque was not the man for the situation. And in saving so we intend no reflection upon that gentleman in any respect whatever. It is true he was all right in a political sense; he British Quarterly Reviews, and Black was well known as an active and energetic public servant, in so far as his sphere of service extended; he was a French Canadian and a Roman Catholie, both of which qualities should operate to his advantage in the County of Russell; yet there did not from the outset appear to us the ghost of a chance of his election. He had no claims upon the county, nor An English sportsman who visited the not to take money from the passengers, tenth, their chief, The ten chiefs of had be any personal influence within it mountain town of Italy, during February, who were notified that the company tenth, their chief. Borthwick springs.

A limited number of boarders can be accommodated at the Borthwick Springs. Invalids wishing to avail themselves of the benedits to by derived from the use of the best Mirreral Water on the continent, and parties wishing to spend a few weeks in the country should visit these Springs.
Comfortable quarters at moderate charges,

Pure country air and freedom from excitement give the patient the benefit of hygicule results impossible to be obtained elsewhere. The attention of the reader is particularly directed to the fact that this Mineral water toses none of its virtues by keeping or transporta-tion, and that where freely taken by those in good health, health continues. By invalids who cannot visit the Springs the water can be as well used in their own houses, whilst its low cost places it within the reach of all. Delivered to all parts of the city in 3 gallon jars, at 10 cts. per gallon, in 30 gallon barrels

at \$2,50 each, barrels extra. For conveyance to the Springs and other information, apply to W. & T. FORTHWICK, 8 Nicholas street. Ottawa, July 26, 1875.

OTICE.
