The weather recently We could not fetch the light, owing to POLICE MATTERS.-Last night the cells has been rough and stormy, but beyond the loss of spars and bulwarks nothing of a very disastrous character has occurred. This is the more to be wondered at when the fitting out of many of the vessels of vessels runs things too close. Vessels are sent out without any lashings or preservers for use in case of bad weather setting in and accidents occurring, and the ship compass is so out of order that it is prac ically useless It is seldom that we have had to record the foundering of a vessel in lake Ontario, accompanied with the privations and exposure which befell the captain, his wife, and crew of the schooner Three Friends on Thursday last. The schooner left Oswego on Thursday afternoon, laden with coal, which was consigned to a firm in Toronto. The weather looked stormy, ties wanting furniture should give them a but no danger was apprehended.
