Their Excellencies the Earl an Countess of Dufferin

These Paperhangings are imported direct from the best Manufacturing Establish ments in England, France and United States. Great care has been taken in their selection with regard to colou. The ground tones are soft and pleasing to the eye, especially those toned with silver mica; but above all, they are fre from the mineral poisons that many of the tawdry-coloured Paperhangings of the day are surcharged with. The Subscriber's long experience as a colourist, and being thoroughly acquainted with the chemical compound of the pigments used in Painting, enables him to reject, in his selection of Paperhangings, those coloured with poisonous pigments, so deleterious to health. The Public are respectfully invited to examine his STOCK of WALL PAPER before purchasing elsewhere.

As the undersigned is going out of the Room Paper Business as soon as his present Stock is disposed of, the Goods will be Sold at the Lowest Remunerating
