## CANADA CENTRAL BAILWAY.

The Brauch from Benfrew to Pembroke. The work upon the Canada Central Railway extension from Renfrew to Pembroke is making rapid, and in all respects satisfactory progress, and the wisdom displayed by Mr. Foster in selecting the most enterprising, energetic and experienced railway men as contractors, is being very well exemplified. The rails and ties are already lying at Renfrew, and the process of laying the permanent way will be commenced upon Monday next. It is expected that this portion of the work will be completed as far as Cobden by the 20th of the present month. As to the rest of the line, it will be ready to have the rails laid in the course of a fortnight, with the exception of the section in the vicinity of the Snake River, about seven miles from Pembroke, where there is some rock to be excavated, which will necessarily take some time. The bridge across the river will also take time to construct, but it is in the hands of an energetic | Recording Secretary of the Society for his contractor - Mr. McFarlane - who has a great many men engaged upon it, and no opportunity of pushing forward to an early completion is lost. In fact, there is little room to doubt that year was next proceeded with and resultthe rails will be laid from Renfrew to ed as follows :-Pembroke without interruption before the first of next year. It is not a little remarkable that, so far as present appearances indicate, the whole 37 miles of railway will have been begun and finished within three months—a very striking contrast to the progress made in building the Northern Colonization Railway. PAIN MILLER. After thirty-five years trial, it is still receiving the most unqualified testimonials to its virtues from persons of the highest character and responsability. Physicians of the first respective bility recommend it as a most effectual preparation for the extinction of pain. It is not only the best remedy ever known for Bruises, Cuts, Burns, &c., but for Dysentery or Cholers, or any sort of Bowel complaint it is a remedy unsurpassed for efficiency, and rapidity of action. In the greatest cities of India, and other hot climates, it has become the standard medicine for all such complaints, as well as for Dispepsia, Liver Complaints, and other kindred disorders.
