The Spanish Coast Question The Pall Mall Gazette, this afternoon, has an article on the Spanish question, in which it ridicules the leading article in the Times this morning. The writer says : "He cannot avoid the suspicion that if a more powerful country than Spain was defaulting in her performance of her international duties, the Times would not have adopted such a tone. Yesterday Leon Say had two audiences with Marshal McMahon. The Moniteur says he spoke to the President about attacks upon him by newspapers which Le Soliel intimates certain officials encouraged. The principal offender is the Figaro which yesterday affirmed that M. Buffet had ordered the Prefect of the Seine et Oise to vigorously oppose the Senatorial list upon which Leon Say's name appears. The Figure also publishes a long and bitter diatribe against M. Experience proved that while the Golden Medical Discovery Favourite Prescription, Pleasant Purgative Pellets, Compound extract of Smart-Weed, and Dr. Sage's Catarrh Remedy, would, if faithfully used, cure a large variety of chronic complaints, there would be here and there a case which, from its severity, or from its complication with other disorders, would resist their action.
