Speeches of the Hon. A. Mackenzie

DURING HIS RECENT

Visit to Scotland,

WITH HIS

PRINCIPAL SPEECHES IN CANADA

Since the Session of 1873. Accompanied by Portrait and Sketch of his Life and public service.

The speeches of Mr. Mackenzie, the head of the Canadian Ministry, have the right thing about them, exhibiting not only that hardheadedness and caution which are so freely imputed to Scotsmen, but likewise a dash of that sentiment or poetry which our neighbours are somewhat more slow in recognizing as part of our national character. Canada would seem for the present to put the right man in the right place, and it is natural the man should magnify the place, and tell us, as he does with apparent truth how good the disposition, how prosperous the condition, and how magnificent the prospects of the vast country over which he presides.—*The Scotsman,* Jan. 17, 1875.

Ottawa, Feb. 1st, 1876. 4059tf

A correspondent, in a letter to us today, complains of the extortionate prices demanded by cabmen for driving parties, desiring to attend the Fancy Ball at the Governor General's, to New Edinburgh and back—as large a sum as $20 being in some instances demanded—and desires to be informed whether or not such charges are legal, and if the cabmen have a right to ask more than is allowed them by their established tariff. As the place in question is outside the city limits, the city authorities would have no jurisdiction in the matter, and there is no apparent remedy for the injustice our correspondent complains of. Of course satisfaction for any over-charge within the city may be had at any time, by application at the Police Station.

Yesterday morning, by appointment, a deputation consisting of Mr. Gilbert Moore, President of the Road, and Messrs. Oliver, Skinner, Trow, Monteith, Charlton, and Wallace, M.P.'s, accompanied by Mr. W. Buckingham, formerly of Stratford, waited upon the Postmaster General, with a view to setting before him considerations for the establishment of a daily mail between Stratford and Port Dover on the newly opened Port Dover and Lake Huron Railway. Mr Huntington received the delegation very cordially, and after hearing their representations, stated that he would consider the subject, in all its bearings, with a view to the increase of accommodation required, and the probable additional expenditure, and would use his utmost endeavour, consistent with the public interest, to meet their views.

A CORRECTION.

Our attention has been called to the fact that an error — unintentional of course—occurred in the report which appeared in our columns the other day of the speech of the hon. Mr. Wilmot, in the Senate, on the debate on the Address. He was represented to have said that "France really paid only some $75,000,000, out of $216,000,000," of the indemnity due Germany; whereas, he intended to have said that only 57 million pounds sterling had been paid out of a total of 216,000,000 pounds sterling, so we gladly make the correction.

Summary of News.

In the Mississippi Legislature, yesterday, articles of impeachment against Lieut. Gov. Davis (coloured) were adopted, with only seven dissenting votes.

The steamship Java arrived at New York from Liverpool, yesterday.

Jacob Bright (Radical) has been elected to the English Parliament from Manchester.

There is no doubt that telegraphic correspondence pending for some days between the U. S. Department of State and Minister Schenck concerning his probable resignation.

The London Times reports the Captain of the Strath Clyde, and twenty-eight more survivors of the disaster, have landed at Deal.

Three hundred members of the Cortes have been returned without a protest being entered against their election. In fifteen of the cases where protests have been made they are considered unimportant.

The loss by fire at Rutland, Vt., night before last, is estimated at $100,000.

Rev. Dr. Horace Bushnell died in Hartford, Conn., yesterday morning.

There was an increase of bullion in the Bank of England amounting to £370,000 during the past week.

In the trial of General Babcock yesterday, Generals Sherman, Simpson, Harvey, and others testified to his good character.

A Washington despatch announces that General Schenck, American Minister to England, has again tendered his resignation, and that it has been accepted.

The steamer Egypt, which was reported ashore off Egremont beach, was got off without damage, and proceeded to Liverpool.

Count Von Arnim has been summoned to Berlin to stand trial on a charge of treason, for publishing the pamphlet "Pro Niheola." It is said that the Count has decided to disobey the summons.

President Grant gave his evidence in the Babcock trial yesterday, which was in every particular strongly in Babcock's favour.

Rumored Resignation of the U. S. Minister.

LONDON, Feb. 17.—Rumors of the resignation of General Schenck, the American Minister, continue to circulate. The *Central News* is authority for the following, which is published in this afternoon's papers here: "Gen. Schenck's resignation has been tendered and accepted. He intends to remain in London to answer any charge that may be brought against him respecting the affairs of the Emma Mine."

Steamship Aground.

The Lloyds have a telegram from Liverpool stating that the steamship Egypt is reported ashore off Egremont beach.

The "Times" on the Spanish Question.

LONDON, Feb. 17.—The *Times,* this morning, devotes leading articles to the recent Spanish note on the Cuban question. The writer says:—"We can't congratulate the Spanish Ministry on the force of their long and elaborate answer to the complaints of the United States. If their reply proves anything, it proves too much. The insurgents are made out so insignificant, it is difficult to understand why they were not crushed years ago. The damage done by the struggle is assumed to be so small, that the complaints of America appear not only unjust, but incomprehensible. Spain speaks as if she had not merely been guiltless of oppression, but treated the island with generosity, and, altother, we are forced to infer that the people which has fought against so good a protector for more than seven years with indescribable bitterness, must be an unparallelled compound of stupidity and wickedness. Such a line of argument lacks the first element of good advocacy, for it is not even plausible. A very slight knowledge of human nature, Spanish history and Colonial life, would suffice to show it must be fatally incomplete when we test it by the real facts of the case. It is found to omit circumstances which make its origin and continuation of the contest intelligible." The article concludes as follows: "No country seeks to interfere by force with Spain's possession of Cuba, but if she cannot govern it she would be well to consider how she could best prepare it for the freedom which always follows Colonial misrule."
