A FURTHER ADVENTURE - On Saturday morning a couple of men - THE TIMES reporter could not ascertain - had a narrow escape from a watery grave, within a few feet from the place on the Chelsea road where poor O'Connor lost his life on Friday last. It seems that the boat of one of the men was blown overboard by a gust of wind, and he was fast hurrying to the edge of the fall, in fact so an eye witness to the occurrence informed a TIMES reporter, it was not more than ten feet from the commencement of the water, and a moment more would have hurried them into the vortex below, and that would have been the end of them. One of them had the presence of mind to lighten the boat by throwing the coil of wire overboard, and then both men commenced pulling for dear life. For about five minutes the boat appeared to be in danger, making no perceptible headway, and it was only by dint of the most strenuous exertions, that the boat was able to escape from the perilous position, and they were placed in. They finally reached the bank of the creek, and it was difficult to say which feeling, predominant - thankfulness for their escape, or physical fatigue after their rough pull.
