Sewing Machines.

The "WILLIAMS' SINGER" is the only Machine that has successfully stood the test of time and experience. During the six years that it has been before the Ottawa public, it has earned for itself the enviable reputation of being the best Machine in the market. A good proof of its superiority is the fact that in nearly all the principal Dressmaking and Tailoring Establishments in the city, it is now constantly used in preference to other makes. GEO. Ottawa, Feb. 14, 1876.

A sister of the Tichborne claimant has been sentenced to seven years' penal servitude for stealing.

"STRICTLY CONFIDENTIAL."

We have a very interesting circular before us. It is a list of the "dead beats" of Ottawa. That there are so few is a matter of satisfaction; that there are so many is a matter of chagrin. It may be doubted, however, whether those thus stigmatised deserve to be so consigned to infamy. And, furthermore, we very much doubt whether every one whose name is mentioned in the list could not with success claim damages for the insertion of charges of the kind in this shape. Among the qualifications for figuring in this list are the following, the items accompanying each of which represents somebody fully graduated. The names are suppressed, to tickle public curiosity:—

"Figures at auction sales; always says he will call to-morrow; the worst case on the list; salary $1,200 a year, requires $2,000 to live on; too much business to attend to small accounts; thought he could run a hotel but got 'run out'; a very sore case; cheeky and impertinent to his creditors; plays at the gaol door generally; a regular aristocratic swell; talented but mean; not liked at the Educational Depart.; the man with the bag; has a great fortune coming soon; borrows money and forgets to return it; honest when nothing else will suit; keeps a large establishment but owns nothing; does a good business in brandy; all his goods made over to his daughter."

TURKEY.

The rather startling announcement reaches us from so many quarters that it is impossible to doubt its authenticity, of the deposition of the Sultan of that wretchedly ill-managed nation called Turkey. It is an event to which we attach little importance, and which we chronicle only as one of a thousand current events. The telegraph supplies only a meagre narration of the incidents of the upheaval by which the late Sultan was relieved of the uneasiness which according to Shakespeare crowned brows must endure, or as to the personage whom for the moment the people "delight to honour." The probability so far as our acquaintance with European affairs goes does not induce hopefulness. We neither feel sorrowful for the sleepy Sovereign who has been ousted, nor disposed to waste congratulations on the one who has taken his place. If we sympathised at all it would be with the inmates of the Harem to whom the transfer of royal power may prove in some respects unpleasant. That such transfer is pregnant with great political significance, we do not believe. It is only the transfer of power from one, by disposition sluggish, injurious, and wholly ignorant of the sublime science of ruling men, to another who, for all the world knows to the contrary, is worthy in the matter of disqualification to take his place. In fact, Turkey in Europe is a huge mistake. Incongruous in itself, it is also an incessant source of trouble; there is no conceivable concurrence of circumstances that can give it a right to rank among the Powers. The dethronement and enthronement are of equally trifling consequence, for it would take the gentleness of St. John, the rude strength of Hercules, and the wisdom of Minerva to mould the disordered nation into a form undeserving of contempt.

Exhibition Items.

PHILADELPHIA, May 30.—The attendance at the Exhibition to-day is much the largest since the opening. It is estimated that 40,000 or 50,000 people were on the grounds at 2 o'clock. All the buildings were thronged with people, the main building and Memorial Hall being the chief attraction, and during portions of the day uncomfortably filled. A delegation of bankers from New York to the number of 300, arrived this morning, and were received at the new Bankers' and Brokers' building, on the grounds. After Prayer the party adjourned to the Judges Hall, where speeches were made according to the programme. This afternoon Susan B. Anthony addressed the M. P. Club at the press headquarters.

"A DROP OF JOY IN EVERY WORD."

FLEMINGTON, Hunterdon Co., N. J., June 26, 1874.

Dr. R. V. PIERCE, Buffalo, N. Y.: DEAR SIR,—It is with a happy heart that I pen these lines to acknowledge that you and your Golden Medical Discovery and Purgative Pellets are blessings to the world. These medicines cannot be too highly praised, for they have almost brought me out of the grave. Three months ago I was broken out with large ulcers and sores on my body, legs and face. I procured your Golden Medical Discovery and Purgative Pellets, and have taken six bottles, and to-day I am in good health, all those ugly ulcers having healed and left my skin in a natural, healthy condition. I thought at one time I could not be cured. Although I can but poorly express my gratitude to you, there is a drop of joy in every word I write. God's blessings rest on you and your wonderful medicines is the prayer of

Yours truly,
JAMES O. BELLIS.

When a medicine will promptly cure such terrible eating ulcers and free the blood of the virulent poison causing them, who can longer doubt its wonderful virtues? Dr. Pierce, however, does not wish to place his Golden Medical Discovery in the catalogue of quack patent nostrums by recommending it to cure every disease, nor does he so recommend it; but what he does claim is this, that there is but one form of *blood* disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that disease, yet he knows it to be the most searching blood cleanser yet discovered, and that it will free the blood and system of all other known blood poisons, be they animal, vegetable or mineral. The Golden Discovery is warranted by him to cure the worst forms of Skin Diseases, as all forms of Blotches, Pimples, and Eruptions, also all Glandular Swellings, and the worst form of Scrofulous and Ulcerated Sores of Neck, Legs or other parts, and all Scrofulous Diseases of the Bones, as White Swellings, Fever Sores, Hip Joint and Spinal Diseases, all of which belong to Scrofulous diseases. 4150

Great Fire in Quebec.

THE OLD STORY REPEATED.

Hundreds of Houses Destroyed.

By Telegraph from our own Correspondent.

QUEBEC, May 30.

A fire which started in Scott street is now raging. About fifty houses have been destroyed. The efforts of the firemen appear useless. The fire is spreading in all directions, and owing to the high wind prevailing, and the inflammable material in the neighbourhood, it is feared the greater part of the St. Louis Suburbs will be destroyed.

The Convent of the Good Shepherd is in imminent danger.

The excitement in the city is intense.

LATER REPORT.

The fire is still raging. At nine o'clock this evening the wind was strong. At the west nearly the whole of St. Louis suburbs is consumed, extending from near the lower field to the St. Louis gate, and there is no knowing where its progress will be stopped.

The Good Shepherd Convent is surrounded on all sides by the fire and efforts are being made to save it. Both the police forces, B battery, all the fire brigade, and a number of citizens are working hard to save property. The Woodly factory is in flames, and it is feared the fire will enter inside the city walls. Hundreds of houseless women and children are camped out in the town and cove fields, presenting a most desolating scene.

LATEST.

At 9:45 the fire, though still burning fearfully, is somewhat under control. The wind has fallen considerably, and a good supply of water is available. The worst is undoubtedly over. It has passed through the centre of the suburbs, extending from the extreme western limit, and reached the eastern limit, facing the fortifications, extending southerly to the Grand Allee, and northerly to the third street south of St. John street; only a rough estimate of the number of houses burned, and the amount of loss, can be made to-night. The former may be put down at 800, and the loss will foot up at least a million dollars. Scott street, where the fire originated, bears an unenviable notoriety for fires, having been almost wholly destroyed twice within a few years. A house inside the walls took fire from sparks, but was quickly extinguished. The fields on the outskirts of the city, and those lying between the city and the suburbs are covered with household effects saved and by hundreds of unfortunate sufferers. A donkey engine used in discharging coals from the ship Constantine at Crawford's wharf exploded this afternoon, owing to the neglect of the driver to put a sufficient quantity of water into the boiler; although there were a number of men standing around at the time of the accident, fortunately no one was seriously hurt. The fireman alone being slightly scalded.

LATER.

VERY NATURAL.

When a person has proved an article and found it good, and answering the purpose for which it is intended, he will not readily abandon it for one of doubtful reputation, or concerning which he knows nothing. We are led to make these remarks owing to the course always pursued by those who have used that celebrated, and valuable horse-medicine known as "Darley's Condition Powders and Arabian Heave Remedy." All are so well pleased with it that they will not use any other; many have waited several weeks until the agent could obtain a new supply. There is nothing equal to it as condition medicine, or for any complaint affecting the wind of horses. Remember the name, and see that the signature of Hurd & Co. is on each package. ELECTRICITY! THOMAS' ECLECTRIC ELECTRIC OIL!—WORTH TEN TIMES ITS WEIGHT IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "Send me 6 dozen Dr. Thomas' Eclectric Oil; have sold all I had from you, and want more now; its cures are truly wonderful." Wm. McGuire, of Franklin, writes, "I have sold all the agent left; it acts like a charm—it was
