J W McRae-Croposed by Geo Harris, To L. Perkins, real estate 1,051 35 seconded by J W Webster. WATER COMMISSIONERS.

W Cowan-Proposed by T W Currier. seconded by I W Webster. W Somerville-Proposed by G H Prestop, seconded by the Stockand. The several nominees then addressed the meeting, the present Aldermen ex-

plaining and defending as right the By balance as per Auditor's courses which they bad taken, but all declaring that they had no ambition to retain their representations, unless it was the wish of the Ward they should do so. The views of these gentiemen have been previously giv 1 in connection with the candidates had addressed the meeting, COMMISSIONER COWAN was loudly called for, who, on

appearing, said that having represented their interests at the Board of Water Works Commissioners for nearly a year, he again came before them to account for his actions in the past, and it approved of, to solicit their voves for the same position during the ensuing year. Fron the almost unanimous expressions of reproval manufested there to-day, he flatter I himself that he still retained their confidence. When first nominated for the position dast year he had much hesitation in accepting, knowing that he would have a strong combined influence to contend with, but they would admit that he was found equal to the occesion. Though he declined to make a personal can ass, he place this position before the electo's of the Ward by circula., sotting forth his views and the reforms he would endeavour to introduce if elected. He met with success at their hands, and he thought they would do him the justice to admit that the reforms promised were not only introduced, but brought into pracfical operation. As to the result, they would find detailed statements of all expenditure in connection with the opemilions and management of the works published tarough the press to the public every month. Their meetings were open to all persons interested. The assessments, so far as complaints in that Ward came to his knowledge, had been more equally adjusted. He always found the assessor ready and willing to examine and determine assessments on the principles of good sound judgment. He felt sorry at the time that their respected chairman had thought proper to vacate the chair and resign at the inauguration of these necessary reforms. He (Mr. Cowan) was satisfied, however, that his actions were govered by his judgment, which bappened

to differ with

Board.

equal o of frost and freshet without accident or injury except so ne of the most temporarv sature, by bursting of pipes, etc. However, we got over the resignation of our late chairman by substituting in his place Mr.) .mes Cunningham, who was known to them all as being competent and able to discharge the duties of the position with honour and ability. Occasionally, during last year, he heard some Amount to be realized from complaints of alleged grievances in the collection of the rates and the assessmeats of certain properties, and casting reflections on the statutes authorizing the proper discharge of those important duties. Now, he again assured them that in all cases of this nature, when he appealed to the collector and assessor, in no instance did ha fail to obtain redress where a grievance was known to exist. And he would further state, as he had at the Ward meetings here, that he always found those officials ready and willing at all times to execute their arduous respective duties courteously and efficiently. He believed the same remark would awply to our manager and the other officials on the permanent staff. He would here remark that though the law describing and imposing the several duties to be performed might be found fault with by some parties as being too severe, the Board of Commissioners were in no way responsible, as the had nothing whatever to do with the framing of the statute. They were merely elected under the law, which was framed by the City Council and a deputation of prominent ratepayers, and he was of opinion that the law in this respect would become more and more pr pular every year, by being worked and applied by upright and capable commiss oners,

CORRESPONDENCE.

The Ed for desires it to be distinctly under stood that, while inserting the communications of Correspondents, he is in no way to be held responsible for the opinions expressed therein.

To the Editor of THE TIMES. Sir,-Several meetings have been held ostensibly for the purpose of throwing ight on municipal matters. I have listened at these meetings with a view to understand the ideas that govern the ouncil and the ratepayers, and have tailed to glean any satisfactory policy on any question, much less on such important matters as municipal indebtedness, railways, exemptions, etc., which are agitating ratepayers in other communities. The Ottawa electors seem to take the selection of their representatives as a joke-a Christmas festival devoted to misrule-and the Aldermen good numouredly enter into the sport, in the endeavour, maybe, to cover up their shortcomings. Messrs. Kinsella and company claim to be the highest intellectual thinkers that sway the popular voice, and direct the destinies of the Metropolitan City, and, udging from a comparison with the men-

tal efforts made by other speakers, they

will make good their pretensions William

I am an enquirer M. W. M. Somerville was the last suggestions to the citizens as worthylof

speaker, and announced himself as in the their thoughts. The proceedings then terminated. It is probable that matters will be so about \$30,000 a year. This estimate is arranged in this Ward that the present irrespective of men in the police force or 64,089 52 representatives will be re-elected without fire brigade, a sum sufficient to pay interopposition. The Returning Officer for this Ward merts, lead thereto good will be done.

The People's Remedy. The Universal Pain Extractor. Note: Ask for Pond's Extract. Take no other.

matter will deserve well of his fellow

Hear, for .I will speak of excellent things." Pond's EXTRACT - The great Vegetable Pain Destroyer. Has been in use over thirty years, and for cleanliness and prompt CHILDREN. No family can afford to be without Pond's Extract. Accidents, Bruises, Contusions, Cuts, Sprains, are relieved almost instantly by external application. Promptly relieves pains of Burns, Sealds, Excortations, Chafings, Old Sores, Boils, Felons, Corns, etc. Arrests inflammation, reduces swellings, stops bleeding, removes discoloration and heals rapidly.

LADIES find it their best friend. It assuages the pains to which they are peculiarly subject—notably fuliness and pressure in the head, nauses vertigo, &c. It promptly ameliorates and permanently heals all

kinds of inflammations and ulcera-HEMORRHOIDS or PILES find in this the only immediate relief and ultimate cure. No case, however chronic or obstinate can long resist its regular use. VARICOSE VEINS. It is the only sure cure. KIDNEY DISEASES. It has no equal for per-BLEEDING from any cause. For this it is a spe-

cific. It has saved hundreds of lives when all

nose, stomach, lungs, and elsewhere.
TOOTHACHE, Earache, Neuralgia and
Rheumatism are all alike relieved, and PHYSECIANS of all schools who are acquainted with Pond's Extract of Witch Hazel recom-Pond's Extract of Witch Hazel recommend it in their practice. We have letters of commendation from hundreds of Physicians, many of whom order it for use in their own practice. In addition to the foregoing, they order its use for Swellings of all kinds, Quinsy, Sore Throat, Inflamed Tonsils, simple and chronic Diarrhoa, Catarrh (for which it is a specific), Chilblains, Frosted Feet, Stings of Insects, Musquitoes, etc., Chapped Hands, Face, and indeed all manner of skin diseases.

TOILET USE. Removes Soreness, Roughness and Smarting; heals Cuts, Eruptions and Pimples. It revices, invigorates and refreshes, while wonderfully improving the Complexion.

FARMERS—Pond's Extract. No Stock.
Breeder, no Livery Man can afford to be without it. It is used by all the leading Livery Stables, Street Railroads and first Horsemen in New York City. It has no equal for Sprains, Harness or Saddle Chafings, Stiffness, Scratches, Swellings, Cuts, Lacerations, Bleedings, Pneumonia, Colic, Diarrhoes, Chills, Colds, &c. Its range of action is wide, and the relief it affords is so prompt that it is invaluable in every Farm-yard as well as in every Farm-housel Let it be tried once, and you will never be without it.

CAUTION! Pond's Extract has been imitated. The genuine article has the words Pond's

Extract blown in each bottle. It is prepared by the only persons living who ever knew how to prepare it properly. Refuse all other preparations of Witch Hazel. This is the only article used by Physicians, and in the hospitals of this country and Europe.

PHOSPHORUS:

afflictions, it is a matter of certainty that in

all cases where the animal vitality is failing, phosphorus is decidedly superior to every other remedy at present known. It will work effects such as nothing else will produce, and it possesses the great advantage of not causing, when its use is relinquished, the slightest reaction or depression.

The Cornhill Magazine of April, 1861, says:—
"But of all the inorganic elements, none seem to exhibit so striking an adaptat become a constituent of the organic body LEAVING OTTAWA. ARRIVING IN OTTAWA as Phosphorus. Here, then is an elemen which can imperceptibly and quickly pass from a condition of great chemical activity to one of great chemics linertness. In virtue blood in its changes, may oxidise in one great set of capillaries, and be indifferent to oxygen in the other; may occur in the brain in the houlders the mere dead weight of stones o lesh-and what is here said of the brain, a Dr. Rowbotham says it is difficult to avoid the conclusion that Phosphorus in a free, un-oxidated state is an essential element of acoxidated state is an essential element of activity in to rain and nervous system of animals; it is equally difficult to resist the conviction of the great importance of Phospherous as an element of the afuters Medica.

The question naturally presents itself, "Why is so valuable an element so little regarded and so seldom prescribed?" The only answer which can be given is:—that a certain difficulty has been found in so preparing it that its action may be kept under perfect control. Hitherto it has been used in almost and olive oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several other substances; but however valuable it has substances; but however valuable it has been found in all the hitherto known methods of its preparation, certain irregular results have been experienced, which have led physicians to neglect it for general purpoes, and to employ it only in extreme But a chemical process has now been discovered, by which its invaluable action on the human system may be realised without any of those drawbacks which previous modes of administration have invariably produced.

> Protected by Royal Letters Patent Dated October, 11th, 1868.

AND LIVER COMPLAINTS. This Phosphatic combination as pronounced by the most eminent members of the Medical Profession to be unequalled for its power in replenishing the vitality of the body, by its supplying all the essential constituents of the blood and nerve substance, and for developing all the powers an functions of the system to the highest degree.

It is agreeable to the palatel and innocent in its action, while retaining all its extraordinary projection, and as a specific, surpassing all the known therapeutic agents of the present day for the speedy and permanent cure of
