OTTAWA, MONDAY, JAN 8, 1877

The s. s. Polynesian drrived at Halifax

yesterday morning.

Senator Gordon, of Georgia, has teleit is now known Mr. Tillen bad a majortion of the votes by the Returning Board of Florida, South Carolina and Louisian: backed by the active partizanship of their victory. We do not know what authority there is for a precise announcement that Mr. TILDEN will be peacefully inaugurated; and it is probable that Mr. Gordon has simply given expression to a personal opini n as to the ultimate result of the difficulty. It is true that the Committees is rather favourable to Mr. Tilden and the Democrats and to strengthen the belief entertained before that he had been fairly elected. But it is also true that no authoritative decision has yet been come to. The reports with each body, the Senate and the

House, to take such official action as may

disputed votes—those of Oregon, Florida.

would give the election to Mr. Tilden. On Friday last there was an incidental discussion on the tax exemption question | medals. No one in Canada could do it as in the Untario Legislature. The matter came up on a motion of Mr. Scorr, in | knowledge of Canada, her resources and amendment to the Address, to the effect her capacities, entitled him even more that the House regretted, in view of the than one boon in the country to make a great interest manifested in the question by the people at large, that his Honour guests. (Applause) had not been pleased to make reference Hon. Mr. SKRAD said it would be best to to the subject of the law relating to the taxation of property for municipal purposes, and the existing exemptions from such taxation. On a division, the motion of Mr. Scorr was rejected by a majority money would come in from another of 12. It is probable, however, that the motion was rejected because it might be considered in the nature of a "motion of who promised money, and he would think want of confidence" in the Government. no gentleman would be held responsible In some other form the question will again, come before the House, when it is possible that a different result may May had gone West on his mission of be arrived at. One of the objections making the barquet a success. He did City of Toronto had taken the lead in for mo e than 250. A gentleman of the Government and Legislative Buildings, and that this would be a tax on the whole Province for the benefit of one municipal pality. This may be so, but, as a matter affecting municipal government, we see no reason why property owned by the Province should not contribute its quota of taxation. As a matter of fact, this Provincial property, like any other property, enjoys the advantages afforded by the municipal administration of Toronto: it receives its portion of benefit from the improvements and expenditures on the the greatest advertisement that could be streets, from the presence of the police given Canada. Distinguished visitors, force and from the existence of the water what reasonable objection the Province could make to its property contributing a fair quota of revenue towards the municipal government of the city. There is no impropriety whatever in the Toronto people seeking to have the Provincial buildings included with the other taxable property. There may, however, be a question whether the Legisla ture has the power to rescind that part of the law relating to the exemption of Government buildings and property, as it is contended that the exemptions are based on the provisions of the Act of Confederation. But these interests are not the only ones involved in the question of sweeping away all tax exemptions. Toronto may have her own interests to serve in leading the agitation, but the interest of Toronto in this matter is really that of the whole Province. 'In the case of Toronto, the most populous and wealthy municipality in the Province. we have an illustration of how the exemption may gradual! grown until it becomes so great as demand redress. In almost every other municipality in the Province the volume of exemptions is gradually swelling, and the necessity for following the lead of Toronto, (the natural leader in Provincial affairs) has been very generally recog nized. If Government property cannot be included in the scheme of assessment and taxation, their are various other classes of property now exempt which may be included by Act of the Legislature. We fail to see any good reason why the land and buildings belonging to religious be selected—that immdiate steps were communities and Church Corporations should be allowed to go tax free. These communities can afford to own land parts of the city in which land is most valuable, and can see their way to erecting thereon ornate and costly structures: and we do not think that very much greater effort would be required to contribute the taxes due on a fair and equitable

assessment of the properties. We have

no sympathy whatever with the fancifu

and sentimental utterances that are fre-

sions of the question. It is said, among other things, that it would be sacriligious to put a tax on church property; and The Editor desires it to be distinctly underthat churches and chapels being devoted Students of Ontario Business College Resim- to the worship of the Supreme Being, a tax upon them would be a tax on the Lord. These utterances cannot fairly be classed as argument, and we think it would be better if they were left out of the discussion altogether. A municipality is a mixed community, composed of attack upon the manager of the firm of persons professing various religious Reche & Co., of this city, I trust you will creeds, of persons connected with wealthy favour me, as being the one personally religious corporations, of persons connected with rengious bodies, few in respondent a fair and honest denial. numbers and small in means, and of | Some time since a correspondence persons who make no profession of reli headed "Commercial Agencies," and gion whatever. But as the law makes no struction between them, there should to the property which may be owned by

The Centennial Banquet.

A meeting of the above Committee was eld in the Council Room of the City Hall n Saturday afternoon, to make arrangements for the forthcoming banquet. The Iou. James Skead was called to the thair, and Mr. W. Pennock acted as

[GIRCULAR.] JARDINE & BROS .. WHOLESALE AND RETAIL BOOTS AND SHOES ESTABLISHMENT,

No - Sparks Street, Ottawa, September, 1873.

SIR,-Having secured the services of M. Rettey, late head clerk at Messrs. reston & McLachlin's, after the closing. their business, as our manager in the etail line, we beg leave to solicit the honour of your esteemed custom. Our stock will always be found to be the very best of workmanship, and of the latest stye, and cheaper than any other store in the city. Having also in our empley the best of workmen, we will be prepared to make all kinds of boots and shoes to order at a very short notice. We remain, Sir,

Your obdt. servants. JARDINE & BROS., Proprietors. M. Rattey, Manager.

MAYOR WALLER'S STATEMENTS \$45,. 672 02 NOT YET EXPLAINED Sir,-In reply to Mayor Waller's statement that my contract was a schedule of prices is quite true; and at my orders a write has been served on His Worship to collect the just amount due me on a sealed contract between myself and the Corporation, dated on the 25th day of January, 1875, and for such legal altera tions as were duly ordered in writing since that date, and for which the sealed contract specifies the amount to be paid me, and needs no comment. Therefore Mayor Waller's reference to my claims contains only the first part of the facts. But the real point at issue, and the case which seems to grate so hard on His Worship is this (as reported in the city papers): In his nomination speech he stated that the total amount of money allowed and paid to Booth & Murphy on their original contract was \$53,032 22, and as His Worship's statement was \$45, 678.02 over and above the amount the late City Engineer (Mr. Sowden) stated their contract should amount to on the schedule of prices on which they tendered; and having good reasons to believe allowed and paid to those gentlemen for work outside of their original contract which really were extras (and justly enspeech that \$2,253.85 was all that was

actually paid to Booth & Murphy for

scare worth a cent, I again asked His

Hence I asked His Worship to explain

Worship to explain the actual amounts paid Booth & Murphy on the various classes of work which differed from the late Engineer's estimates, an the deduccations of Correspondents, he is in no way tions, if any, on the same, and how much to be held responsible for the opinions of the \$45,678.U2, paid over and allove the late Mr. Sowden's estimates was actually paid on "extras" spart from the first contract. This fits too tight, and instead of coming squarely to the real issue, this great mathematician comes down with an abundance of figures which.

> must say, reads well if they were only Will those facts of Mayor Waller' stand criticism? His Worship stated in his nomination (as reported in the city papers) that I had been paid on account my sewer contract the sum of \$30. 298 26, and in your issue of the 3rd inst. his Worship states as a fact that I have been paid only \$24,448 04.

By returning to the minutes of the City ouncil of the 22nd of June last, and the same was published in the city papers on the following day, the City Engineer re ported that I had been paid only the sum of \$27,927 21. This amount includes moneys paid me for drain pipe, which my first letter explains, and fully proves my

Another of Mayor Waller's facts in thi manager the goods were bought from same nomination speech was that my Messrs. McCready & Co. At this time Mr. contract price was \$32,148 48. In your that my contract price was \$32.041 16. Now it is quite evident from the differ Reche had to leave the city for New York | ence between Mayor Waller's assertions on nomination day, and his written statements as appear in your issue of the 3rd inst., that he could not possibly have given the matter the attention that he professes to give matters that he undertakes to dilate upon. Or can it be possible that the great mathematician intends to pub-Worship's statements of facts and figures and when the ratepayers subtract the figures, the facts will be non est comatibus

Apologizing for the space I have occu-(McC. & Co) satisfa tion. But the answer | pied, and as I am not by profession a to my letter was the arrival of one of the mathematician as capable of changing the firm of McC. & Co., who still did not discover, as stated in the Evening Star, that such a firm as Rache & Co. did not discover as Rache & Co. did not discover as stated in the Evening Star, that to gather them from the records, in vindi cation of myself against the personal attacks of His Worship. Yours, etc.,

IMPORTANT NOTICE. A NEW GAS LIGHT FOR THE STREETS

The undersigned having purchased fro J. D. Gould, of Boston, Mass., the patent right of the "BELL VAPOUR BURNER," for the D n inion of Canada, are now prepared to furnish this Gas Light to cities and towns, either by ntract or otherwise. The obstacles heretofen experienced in lighting the streets with a valor light have been stirely overcome by the invention of the Perfected Burner. Its Points of Merit are

It gives a Brilliant Light, fully equal to the coal gas. It is simple in construction, self regulating, and does not smoke, or get out of order. Can be burned at one-half the expense of coal gas, and is even cheaper than the "kerosene lamp" now in use. The duration of light can be graduated to any number of hours, still further decreasing the expenses attending.

It is not affected by the lowest temperature. It obviates the use of Street Mains and Service Pipes, and is adjustable to any street Lantern now in use. It is particularly adapted to light Streets, Parks, Mills and Private Grounds.

Orders for light punctually attended to. TOWN AND COUNTY RIGHTS FOR SALE
