Complete Year Around Maintenance

\$5.5 - mill crop insurance paid

Last year, 1974, the Crop Insurance Commission paid out a record \$5.5 million in claims to farmers growing corn.

This large claims payment is a direct result of the adverse season. Late plantings and early frost made 1974 one of the worst corn years in memory.

Last year there were 4,544 farmers participating in the corn insurance plan. With material costs over \$70 per acre this spring, there will probably be more participants in 1975.

How does corn insurance work? A farmer can choose one of three price options: \$2.60 per bushel - \$4.40 per acre; \$1.95 per bushel - \$3.30 per acre; \$1.30 per bushel - \$2.20 per acre.

Under the plan a farmer is guaranteed a certain number of bushels per acre based on his past yields and claim experience. If his actual production is less than his guaranteed production, crop insurance pays the difference at the price option chosen.

If you would like the name of the crop insurance agent for your area, call the ministry office at 322-2231.

Hay Crop Harvesting Day - The North Simcoe Soil and Crop Improvement Association has agreed to financially support an area hay crop harvesting day.

This event is scheduled for June 12, 1975. The location has been moved to the Ministry's Research Farm at Elora, Ontario (70 miles Southwest of Barrie).

The program will feature demonstrations of equipment used in harvesting the hay crop. They will include large round balers, stackers and forage harvesters.

Guest speakers will be discussing the advantages and disadvantages of the various implements. They will also be looking at complete haying systems for the farm.

Limestone Available in Simcoe County - Many farmers have inquired about the purchase of agricultural limestone for use on their cropland.

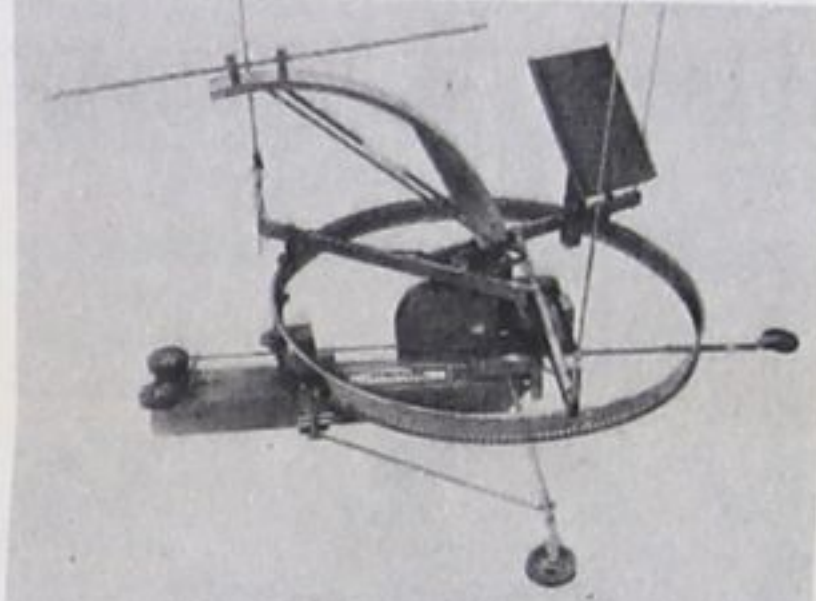

Good quality agricultural lime is available at McKean's Quarries, south of Collingwood. It is a finely ground product containing both magnesium and calcium.

The cost of the lime is \$5 per ton, the spreading charge is \$1.50 per ton, and the delivery charge is \$1.10 per ton for the first 10 miles and 6 cents per ton-mile thereafter.

If you live 30 miles from the quarry, your cost will be \$8.80 per ton, delivered and spread.

Orders should be placed a week in advance. The phone number is 445-2300.

\$100 Rebate on Berg Silo Unloaders (for early ordering)

Important sales points: 1. Does not depend on silage to settle before machine can be used. In other words, the machine can unload from the silo the same day filling takes place. 2. No adjusting of weights or drums. 3. Low cost filling, with distributors. Two machines in one. It is used for unloading and it is used for distribution of the silage when filling. 4. Unloader will not bury itself. 5. The machine will not tilt.

Also a full line of Stabling, Manure Handling and Ventilating Systems

"Berg builds everything better for barns"

Our service starts before you buy.

From the time you walk in our door we are ready to help.

We promise to:

* provide information on every model in the Massey-Ferguson line to help you compare machine values.

* help you select a machine that is properly sized and equipped to best meet your needs.

* offer a sound financial counseling service for your machinery needs and will provide you with the facts and figures to help you decide whether it's to your advantage to buy, rent or lease your equipment.

* service all of your Massey-Ferguson equipment.

These are not just claims or goals. They are promises, and they reflect a policy that we're following right now. What's more, they're part of fifteen promises we're making to you. We're out to provide the best service in the area, and that's another promise you can hold us to.
