**Wash Strawberries before Hulling...**

It is best to hull strawberries only after washing, otherwise they may be mushy. When strawberries are hulled before rinsing, the small cavity soaks up water causing the berries to swell and giving them a watery taste.

If the berries are to be stored a day or so in the refrigerator, do not wash till ready to eat. It is a good idea to spread them out on a flat receptacle rather than leave them in their square container which restricts their breathing and may cause bruising. A strawberry is a very tender fruit.

Mrs. Green is available to talk shopping to groups. Call 255-6633 or write-300 The East Mall, Islington, Ontario M5B 6B8.

PRICES EFFECTIVE WED. THRU SAT. JUNE 25-28th.  
WE RESERVE THE RIGHT TO LIMIT QUANTITIES.
