Remember When MY IGA BRANDS were your best buy? They still are!

For 25 years IGA's own brand products have represented outstanding value: always of the highest quality and always at a lower price than comparable national brands. And now, during our Silver Anniversary, we're holding a special IGA Brands Sale — and that means even greater savings for you.
Remember when you could depend on your local food store for quality and savings? At IGA it's still that way. You can trust IGA Brands — every time you shop.

Canned foods....
Rust: Cans with excessive evidence of rust should be discarded. If the rust has only started on the surface of the can, and the contents are unaffected, the product can be consumed. This can be ascertained by surface scratching with fingernails. Surface rust will flake off.
Swollen cans: REPORT THESE IMMEDIATELY to the store manager, because foods in swollen cans can be hazardous to health.
Frozen cans: Cans that have frozen during winter in cottage cupboards will likely be safe, but the texture and the color of the product will be altered.
