Drop that paint brush.

We've got you covered with Westroc vinyl siding

Unique "double wall" siding  
"Contempra-clad" single wall sidings

End house painting with a hammer. Westroc Vinyl Siding never needs painting because it's solid vinyl with colour clear through. Won't chip, peel, blister or dent. And it will not attract lightning or conduct electricity like metal sidings.

Westroc's unique double wall construction encloses an air barrier that helps to insulate your home. Keeps you cooler in the summer and warmer in the winter. Reduces the transmission of outside noises too.

The clean vertical or horizontal lines have all the traditional character of wood siding, but none of the maintenance problems. Its 30' lengths eliminate joints and make for fast, economical installation. Each section fits snugly together to cover your home and keep wind and weather out.

Westroc Vinyl Siding is guaranteed for 20 years and we stand behind it with a 50 year reputation for quality products and service. Available in traditional white, pastel green, pastel yellow or gold. Also available are Westroc Vinyl Soffits to complete your maintenance free Westroc exterior.

A beautiful investment.

Six communities entered

## Women's volleyball planned

A team from the Midland area will be joining a competitive women's volleyball league this winter.

Interested women from Barrie, Bradford, Innisfil met early in July to discuss the possibility of forming an inter-community league in order to provide women 18 years and over with an opportunity to play good recreational volleyball. As many as six to eight

communities will be in the league with Collingwood and Orillia joining those mentioned above.

Between now and the next meeting scheduled for Wednesday, August 4 at 7:30 p.m. at the county building in Midhurst, communities interested in league play are asked to form teams, arrange a suitable facility and choose someone to represent them at the

August 4 meeting. Rules and schedules will be set by team representatives based on the desires of those involved. The emphasis will be on fun and recreation while maintaining a good calibre of play. Any group or individual

who would like to be involved is asked to contact the Greater Huronia Sports Council at the county building in Midhurst. From Elmvale the number of 726-9300. From Midland Penetanguishene, the number to call is 526-2261.

## Tay accepts new building permit fees

At a regular meeting of Tay township council last week, Councillor Dave Moore and deputy-reeve Hill moved to introduce a new bylaw to provide for a new schedule of fees for the purchase of building permits.

Clerk Walter Lumsden said that the cost of building permits had not been updated since 1959 and council felt it was

time to increase the fees. The clerk said he could not say by how much the fees would increase as they can vary with the different permits.

A motion was passed at the meeting to establish another municipal poll for section four because of in previous years the number of voters has been too great for the one

## Invading bay waters

Making day camp more than just day camp, about 60 children who are taking part in the UMCA program, piled on a bus and invaded a beach on lovely Georgian Bay, setting up camp, and spreading canoes on the

beach. The group spends one night a week on the beach, and when the weather is right, the kids have a great time. In charge of the groups is John Parker, a councillor with the YMCA. Staff photo

## Call Contact

526-9333  
Hours 9 a.m. to 6 p.m.  
Monday to Friday (Except Holidays)

Summer time is supposed to be the lazy time of the year. Many homemakers would certainly be the first to declare "no way". When you live in a beautiful holiday area as we do, all our friends and relatives come to visit. Planning menus becomes a real problem with the high cost of food and all. It is surprising how a great casserole may be made with a lot of vegetables, creamed soups and a small amount of meat or fowl. Watching for the "buys" of the week and taking time to plan makes life for the cook much simpler.

There are some great activities planned for your enjoyment this coming week.

July 17 and 18 a music event at St. Marie among the Hurons. There will be informal sessions during the day. Saturday evening there will be a longer session in the foyer.

July 17 the Jaycees are holding a Garage Sale on the east parking lot of Midland Secondary School at 10 a.m.

Once again St. Andrew's Hospital Auxiliary will be holding their Antique Market July 20-21 and 22nd. The market opens on Tuesday evening at 7 o'clock. The best antique dealers from across Ontario will be there with beautiful things to buy and see. And the proceeds will be used for our new Huronia District Hospital.

If you would like to attend a family camp for a week beginning July 17th you may apply to John R. Stuart, Georgian - Loyalist College 41 Frederick Centre, Orillia. The cost of the camp is based on size of family and ability to pay and ranges from \$70 to \$150 per week. The program will provide the opportunity for family discussions and sharing with other families. The main emphasis will be relaxation and outdoor camp activities.

If you want further information call us at Contact 526-9333.

ATTENTION: WELL, RIVER AND LAKE WATER USERS...

## YOUR DRINKING WATER MAY BE UNSAFE.

In Ontario we have taken pure, clean water for granted all our lives. So it's a real shock to realize that we just can't trust untreated drinking water anymore.

With all our lovely lakes and bright, sparkling rivers and deep, cool wells we have to be concerned about invisible little disease-causing bacteria that could be in any untreated water in Ontario.

How can you protect yourself and your family? Can you be sure your drinking water is 100% safe? Yes—with a Super Sterasyl water purifier.

## THE SUPER STERASYL WATER PURIFIER GIVES CLEAN, PURE, SAFE DRINKING WATER FOR UNDER \$70.

- Silver-impregnated ceramic cartridge traps and kills bacteria and filters other microscopic particles.
- Activated carbon removes most bad tastes and odours.
- Simple do-it-yourself installation—no pipe-cutting or soldering.
