Except Holidays

Halloween has come and gone and before you know it Xmas will be here. This is the time now to start planning your activities so that everything is not pushed into the last few weeks before the big day. The planning is as exciting as the actual preparation in your own home but what about planning for the shut-in senior citizens of our area? As the weather gets colder and more inclement getting to the shops becomes a real chore for the handicapped and elderly so why not when you plan your shopping expeditions call your shut-in neighbour and ask her if you could help her with her shopping list?

If your Service Club, Church or organization is planning a special function for the Seniors or shut-ins please do it early so that the entertainment or what ever you plan is not all squeezed into the few days of Xmas week. Entertainment is good for all of us, it helps alleviate the boredom of every day routine. At Xmas time it seems that everyone wants to bring joy to others less fortunate and I must congratulate the citizens of the Huronia area who have always been so very generous with their time and talents during this busy season, but why not start now, so that it is spread over a longer period of time and each event can be savoured with more pleasure.

This coming weekend the 5 and 6 of November is Poppy Day. Do support the Royal Canadian Legion and buy a poppy. The work the Royal Canadian Legion does is vast the encompasses many facets in the lives and homes of our veterans and their families. On November 11th. there will be Cenotaph services, and observe a few minutes of silence and in so doing reflect back and say a few words of thanks to the many who gave their lives so freely so that we may live today in peace and harmony with our fellowman. When I was a child there was no school holiday on November 11th but in its place each school had its own cenotaph service and we remembered. Today it means nothing to our children, they run and shout and play as the bugler plays the last post, not knowing or even caring about what is going on around them. Parents and teachers do take time to tell the children so they too can show their respect to our gallant veterans of the first and second wars.

The time is drawing near for Contacts gigantic Garage Sale at the Civic Centre on Saturday November 6th from 10 a.m. to 3 p.m. Bring any good used articles to Contact Centre or call 526-9333 and we will arrange to have it picked up. We already have some good articles for sale, so make your Christmas shopping list out and be at the Civic Centre by 10 a.m. Saturday November 6th before all the best bargains are gone. Contact wishes to express sincere congratulations to the Huronia District Hospital and to the staff and many volunteers that made the transition from the

old to the new so easily and effectively and in such a short period of time. There has been no interruption of our Meals-on-Wheels program and to Mrs. Suzanne O'Halloran and her staff. Contact and the many recipients of the Meals-on-Wheels program wish to say a very special thank you.

October 31st to November 6th has been proclaimed "Energy Conservation Week". What can each of us do to help save this precious commodity of energy? We hear so much about energy conservation these days. We know it's good for Canada but we forget that it is also a terrific way to save money too. Stop and think each time we turn on unnecessary lights or turn up the thermostat of the furnace — its just as easy to put on a sweater and probably much more healthy for us at the same time. Why don't each of you make a check list of where you can help save energy and at the same time save money. Post the list where all the family can see it and then check each other when you find lights burning or the radio or the T.V. going when no one is using them. This all helps save energy and if each of us try this we will have energy left to share with our children and their children.

Happiness is helping others to help themselves. Call Contact 526-9333.

Mary M. Gibson,
Administrator.

Learn of learning process

Public elementary and secondary school students in Simcoe county stayed home from school last Thursday and Friday while their teachers stayed at school to learn more about the learning process. On Thursday elementary school teachers remained at their schools to discuss curriculum planning and other related subjects. Friday they fanned out across the county to attend workshops and seminars in many areas. One of the seminars was held at Bayview School in Midland. Primary School oriented, it drew 170 registrants from all over Simcoe County to listen to Elaine Gibson from the Ministry of Education who spoke on "What is Practical in the Formative Years." Practical sessions in drama, music gym and environmental studies completed the day's session. At Corpus Christi School in Penetanguishene county teachers gathered for a

Your generous gift to the Y Campaign will be appreciated by our youth.

Shiffer Hillman
the difference is more tailoring

Shiffer Hillman clothes are literally hand-built. Each piece is cut with hand shears for precise matching. There are dozens of contour pressings and thousands of hand stitches — both where you can see them and where you can only feel the better fitting qualities they impart. By these standards, all other clothes are machine made.

Nursery

Midland Nursery School Incorporated held their general meeting recently with speaker Dr. Henry Feenstra who is the chief psychologist for the Grey Board of Education.

Near completion

All excavation should be complete on the Victoria Harbour bypass on highway 12 within the next few weeks. Engineering consultant John Curtis explained that the soft clay was excavated and a berm on either side of the road, eight feet above the original ground level, will be constructed to form a counterbalance to the pressure the roadway may have on the soft ground. Work on the bypass will not be completed until the new year.

This is Energy Conservation Week.

Here is what you can do to help Ontario conserve energy.

Energy. It will cost us \$7.5 billion province-wide this year. To help cut that cost, your Ontario Government established the Energy Management Program. The goal is to save \$1 billion a year on energy bills throughout Ontario by 1980.

Ninety-five energy management research and demonstration projects are underway to help you use less energy at home and at work.

You too can conserve energy and save money by:

- Insulating and caulking your home
- Lowering daytime temperatures to 68° F (20° C) and nighttime temperatures to 63° F (17° C)
- Closing drapes on all windows on winter nights
- Replacing air filters on warm air heating systems once a month
- Using 40 watt instead of 60 or 100 watt bulbs where practical
- Keeping the damper closed when the fireplace is not in use
- Installing storm windows and doors
- Turning off lights and TV when not being used

- Warming up your car's engine gradually
 - Avoiding idling the engine while waiting
- For more ways to save energy and money, send for the free booklet "Energy Conservation...The Choice is Yours". Write to:
