

Candidates speak out

For mayor, Vince Moreau

Vince Moreau

I seek your support for re-election as Mayor of the Town of Penetanguishene, so that I might complete the many projects we have underway or which are on the drawing board. Projects such as the servicing of our municipal subdivision in the Yeo Street area so that we might be in a position to supply serviced land for much needed housing for our citizens. The construction of a 40 unit senior citizen apartment building on Maria Street. The continuation of sanitary sewers on Robert Street West. Continued

negotiations with the Province and the County of Simcoe for the restoration of Robert Street West, which calls for repaving of the street, curbs, gutters and sidewalks. Resurfacing another stretch of Fox Street. The paving of our stretch of Fuller Avenue, so that we might get the heavy traffic off of Church Street. The straightening and widening of Highway 27. The continuation of the NIP program in the west end and the commencement of the same type of project in the centre of town. Negotiations with the C.N.R. for the purchase of the right of way so that we might continue upgrading and enlarging our water

front park and the development of a commercial site in the government dock area. During the years, I have cultivated a good relationship with our more senior levels of government which has enabled us to obtain numerous grants and will continue to press for more of the same which will greatly assist in the accomplishment of these projects. I have gained valuable experience over the past seven years, which I believe will stand me in good stead in dealing with the many complex problems that arise in the every day operation of a municipality and I ask for your support on December 6.

Ken Tannahill

Ken Tannahill

On completion of six years on your council, I am seeking your support in the upcoming election

so that I may serve you once again.

During these years I have served in the Amalgamated Board, Police and Fire Committee, Public Works, Planning Board, and the Development Committee.

With this experience and being truly interested in this municipality as well as the people we have working in it, I will, if re-elected, continue to serve you, the taxpayer. Your support on December 6 will be deeply appreciated.

Thank you
Ken Tannahill

John Butler

John Butler

The period from now until December 6th should be one of the most concern for all of us. To whom we are going to give our mandate to carry on with the business of our Township over the next two year period. In Tiny Township a Reeve, Deputy Reeve and three Councillor are elected to form our

municipal governing body. Giving the utmost respect to our inflationary problems, it is important that those we elect have the ability necessary to make decisions in line with the needs of the township, "AS A WHOLE".

Communication, taxes, planning, zoning and recreation for all ages are key issues in every

election. I personally value the opportunity I have now, as one where I can ask every voter in the Township of Tiny to seriously assess the candidates that have come forward, and then to vote accordingly, in order that these key issues be met enthusiastically over the next two year period.

On December 6th, please vote!

Eugene Maurice

Eugene Maurice

After some two years of serving as councillor for the Township of Tiny and having learned some of the methods of how municipalities are administered, I feel that any promises that I could make may not necessarily be fulfilled. Therefore the only promise I can give you is to try to help administer the Township with common sense and fairness I feel that the only way that any Council can be successful is to

have members who realize that they have been elected to serve the needs of the people. In serving those needs, one must remember to be compassionate towards the problems presented and to deal with them as directly as possible. The best approach is the direct approach.

I am grateful for the opportunity to ask for your support in re-electing me as Councillor for the Township of Tiny in December 6, 1976.
