Forage Days '77, an educational program for farmers, will be held at the Elora Research Station near Guelph, June

June 'Forage Days'

7, 8 and 9. This program, one of the major agricultural events of the summer, will deal with all aspects of perennial forages: growing, harvesting, storing and feeding

Sponsored by the Ontario Ministry of Agriculture and Food and the Ontario Agricultural College, the program is designed to provide farmers with the latest information on forages. Program organizers

expect several thousand

people to attend the

strated and discussed at the Dairy Research Centre. Harvesting equipment will be on display at the station. Speakers will discuss how to use the different pieces of equipment together so that they make a harvest

Forage Days '77 will

feature tours to look at

growing forage crops

both for stored feed and

for pasture for beef

cattle. The feeding of

forages will be demon-

Other exhibits will include products used in forage production such as seed, fertilizer and pesticides.
