"I expect this Husqvarna 2000 to be around for the graduating class of 1999."

"Our Husqvarna sewing machines work so smoothly and are built so well that sometimes I think they'll last forever. They're ideal for students—so easy to use."

Beverley Elashuk,
 Home Economics teacher,
 Oshawa, Ontario.

For over a century, the people at Husqvarna have been designing and perfecting sewing machines. Which explains why the Husqvarna 2000 is such a remarkable machine. Where else will you find a 100% jam-proof hook? Or an actual gear shift that allows stitch-by-stitch

control without sacrificing motor power. An extra long straight stitch (up to 6mm.) and a machine that never needs oiling. Besides the Husqvarna 2000 there's a complete line of Husqvarna machines to fit all budgets. Come in and discover what sewing is all about.

Husqvarna

"The ultimate in sewing."
