

Hard at work

Near zero temperatures didn't stop this man and his son from doing their job. The billboard they are working on is in the off street parking lot along Main Street. It used to advertise the Humane Society, but the

March of Dimes has taken over the spot. When asked why he was working in such cold weather, the man replied with a grin. "You gotta eat," he said.

It's that time of year again

Twenty days left to get licence stickers

There's just 20 days left to get those new licence plate stickers and avoid the fine for driving with old ones after February 28.

And you'll be pleased to know that the cost of licensing your car has escalated again this year. For those eight cylinder gas guzzlers the price for a licence will be \$60. If you drive a smaller and

slightly more economical six cylinder, the cost for a new licence is \$45. And if you're lucky enough to have an economy four cylinder you can get away with \$30 for the new licence.

The people who get hit the worst are the new car buyers who are licensing their cars for the first time. If they're over 397 cubic centimetres the

cost for a licence will be \$80.

This year is another "sticker" year however, if your plates have been badly damaged and the numbers are illegible new plates will only cost you \$2 a set.

On the other hand if the paint has chipped off your plates because of a manufacturers defect, they will be replaced free.

Midland's licensing bureau is in the Midland Flour and Feed Store. You will need copies of your ownership and insurance to get your new licence sticker. You must also pay in cash - a cheque will not be ac-

cepted. In order to speed up the process and eliminate the last minute line-ups, a spokesman from the bureau suggests that you drop in and pick up the card that you must fill out ahead of time. Then when

you are ready to buy your licence you won't hold up the people waiting in line behind you.

Remember - the licence stickers are on sale now and there is no reason to wait for the last minute line-ups to pick yours up!

A reasonable rental covers lawn care, cable TV, home security, refuse removal and complete access to your own clubhouse and all recreational facilities.

Our Guaranteed RSP. How to look out for

We're not the only one trying to sell you a Retirement Savings Plan. Before you buy an RSP, compare. Look out for #1. Don't just shop for a high rate of interest. That's important, but there's much more. Look out for a high rate of interest that may suddenly drop after six short months. Look out for a front-end load. Look out for opening fees. Look out for forced minimum contributions. Look out for closing fees. Look out for management fees. Look out for redemption charges at maturity. Look out for government statement filing charges. Look out for surprises. More than anyone else Sterling Trust doesn't think you should have to pay to invest with us. After all, the whole idea behind an RSP is to

make you more money. By charging you less. But don't just take our word. We'll have the coffee on at our place. Come in and let us show you what our Guaranteed RSP can do for your future. Then pick up our shopping list and compare. Once everything is down in black and white see who comes out #1. If you're looking out for #1, look out for us.
