### Prize winners

## Poster contest winners announced

If you have or will be attending a show at the Odeon Theatre in Midland, you will notice a collection of posters hung on the wall.

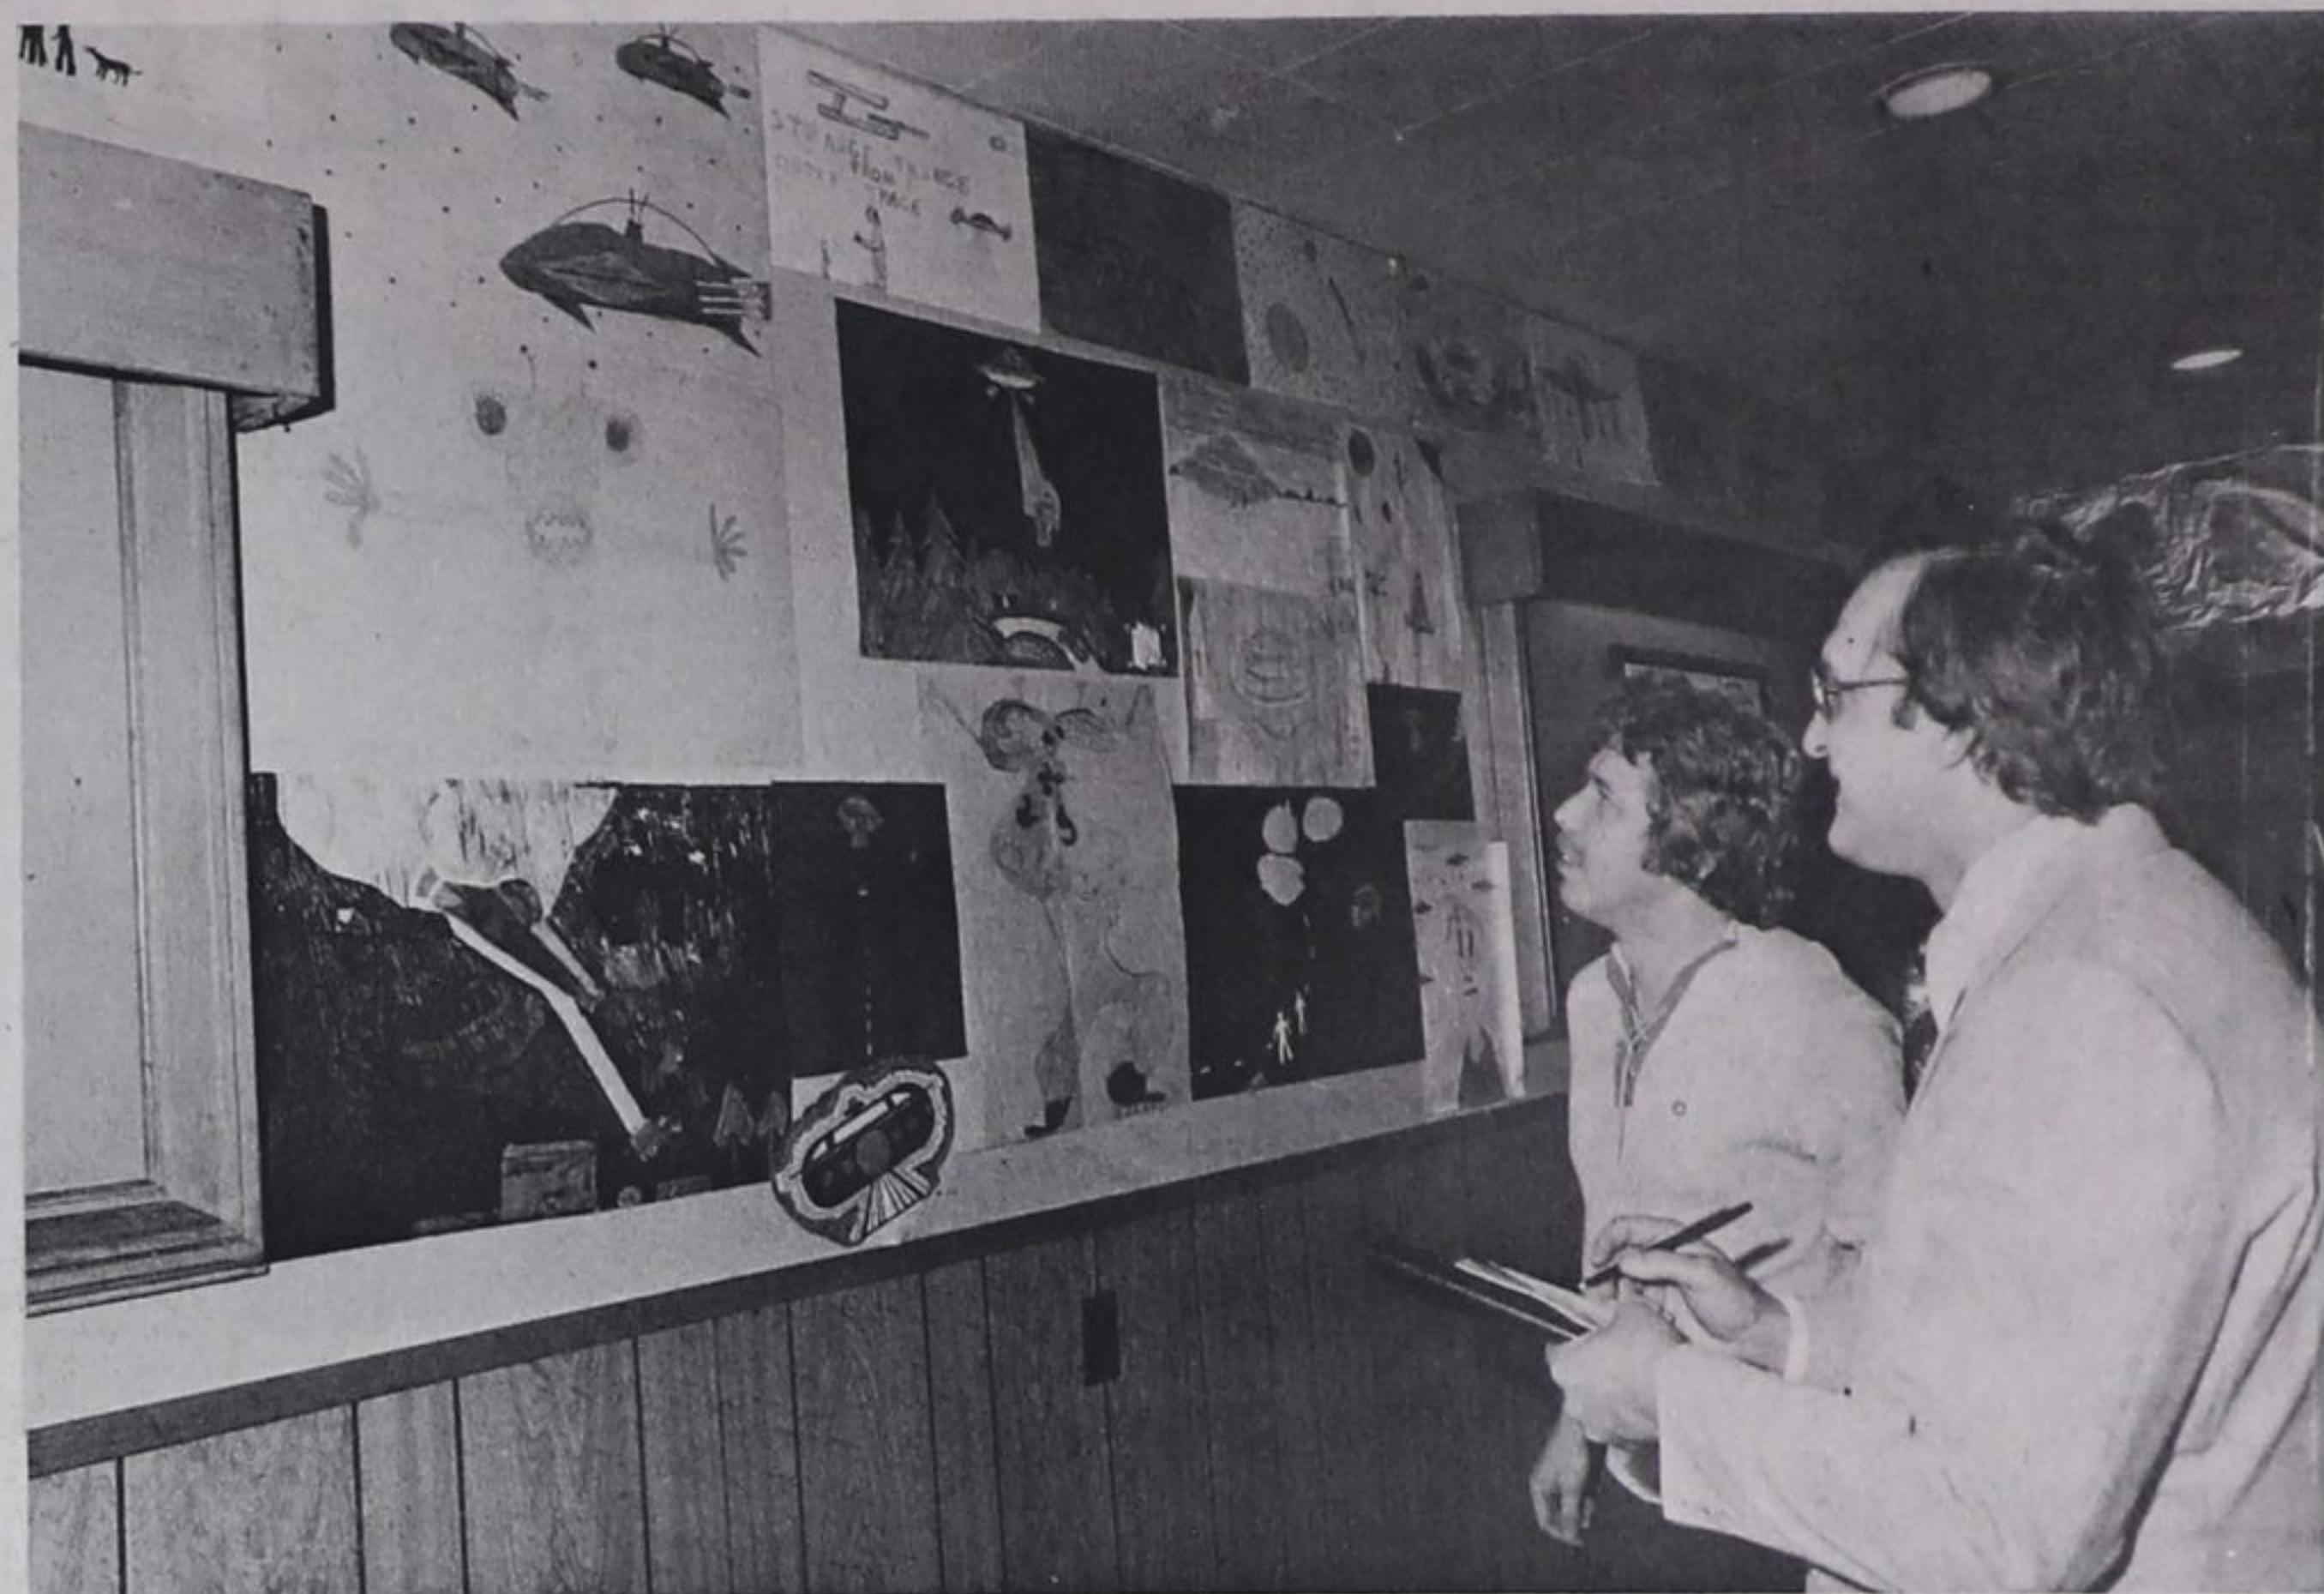

Of course they are not new wallpaper for the theatre, but posters which were made by public students from the area.

The theme of the poster competition, which was sponsored by the Odeon Theatre, was "Outer Space".

"On an average, the posters were quite well done," said Vic Mlodecki, advertising manager of the Midland Times. "It was a hard decision to arrive at the winning posters."

The winners of the poster competition were Ellison Sandy, a grade eight student at Christian Island Public School, who received \$10. Second prize went to Sharron Knowlton, a grade eight student at Corpus Christi Separate School, who received \$5. There were also ten consolation prizes of one Midland Centennial dollar, which went to the next 10 best posters.

The judges for the competition were: Robbin Jefferies of radio station CKMP, Helen Delaney from the Midland Public Library, Mr. Mlodecki, and Pat Smith from the Free Press.

### Displayed at Odeon

Robbin Jefferies of radio station CKMP, and Vic Mlodecki of the Midland Times, judge the posters which were entered in the competition. The theme was "Outer Space". The posters will be left hanging in the Odeon Theatre for the next couple of days for public viewing.

### In zone championship

## Atoms take two-game lead

Midland Bausch and Lomb Major Atoms took a two game lead in the Georgian Bay zone championship last Tuesday, with a 5-4 win over Aurora in the second game of the best-of-five series played in Aurora.

Mike Gadsby's goal, with just over two minutes remaining in the game, gave Midland the win in a hard fought game that featured a three-goal comeback by Aurora in the second period.

Jeff Bales, Kevin Beausoleil and Shawn Davy spotted Midland to a 3-0 lead in the first period before Aurora came up with a three goal period of their own to tie the game going into the third period.

Don Seeman put Midland ahead by one with his goal from Bales and Davy, but Aurora came back to tie it once again.

Midland continued to press the attack in the last few minutes of the game and Jason Brown narrowly missed making the score 6-4 when his shot

hit the goalpost.

Midland will attempt to wrap up the championship in three straight games this Saturday, in Aurora. Game time is 3 p.m. at the Aurora arena.

In preparation for the championship game Midland participated in the Golden Puck tournament in Port Colborne, Ontario, where they missed that championship by one goal to Acton in the final game.

Midland earned a spot in the championship game by beating Hamilton-Hagel Blades and Six Nations in the first two games of the tournament.

Don Seeman, Bill Russel and David Bresette scored once each to give Midland the lead in the final twice, but Acton came back to tie the game twice and finally won it with a goal late in the second period.

The teams fought to a scoreless tie in the final period but, Midland had two goals disallowed by the referees when they were scored after the play

had been whistled down.

Jim Faragher scored in overtime to give Midland a 3-2 win over Hamilton-Hagel Blades in the second game of the tournament.

Faragher and David Bresette scored once each in regulation time leaving the score tied 2-2 at the end of the third period. Assists on the goals went to Jason Brown.

Faragher and David Bresette scored once each in regulation time leaving the score tied 2-2 at the end of the third period. Assists on the goals went to Jason Brown, Bill Scott, and Jeff Bales.

Bales combined with Shawn Davy to set up

Faragher's game winner in overtime.

Mark Dineen suffered a shoulder injury with 21 seconds left in the third period and was taken to hospital for treatment. Gary Watson replaced him in goal and played a perfect ten minutes of overtime. Both of the Midland goalies were named runners-up to the Acton goalkeepers as Most-Valuable Netminders of the tournament following the championship game.

The closest game of the weekend went to Midland after two scoreless overtime periods.

With the score tied 5-5 between Midland and the

Six Nations team from Port Colborne, the game went into overtime twice, but ended in a referee's decision based on shots on goal. The first overtime ended with both teams recording seven shots on goal forcing a second period of extra play in which Midland outshot Six Nations 3-2 and clinched the win.

Coach Gabe Quesnelle said he was relieved when his team won by the single shot margin.

"We've lost games that way before, so I was glad we won it that time."

Six Nations took an early 3-0 lead in the game and still lead 4-2 after Jeff Bales and Shawn Davy

scored in the period.

David Bresette assisted on both goals.

Six Nations opened their lead to three goals at the start of the third, but Midland came back with three straight by Chris Edwards, Davy and Bales to tie the score at 5-5.

Jason Brown and Bill Scott earned assists on Edwards goal, and Kevin Beausoleil combined with Scott to set up Davy's goal. Bales tying goal came from Bresette and Seeman late in the game.

At the conclusion of the final game Midland players were named the most sportman-like of the tournament.

### Fifth game Friday

The Penetanguishene Junior C Kings were in Alliston last night to play the fourth game in their best-of-seven all Ontario hockey quarter-final against the Hornets. Results of the contest were not available at press time.

The fifth game of the series will be played Friday night at 8 p.m. in the Penetanguishene arena. At press time, Kings trailed the Hornets in the series two games to one.

## Two main breeding seasons

### You and your pet

by Dr. C.E. Leitch

Very little is known about the reproductive physiology in cats. Males are called the tomtoms and females are called queens. Puberty in both toms and queens is reached about seven to 10 months of age. Domestic cats have two main breeding seasons, one in spring from January to March and the other in late summer and early fall.

In the absence of mating the queen experiences a series of heats at approximately 18-day intervals during the breeding season. The queen in heat attracts males and the changes in her behaviour are

pronounced. During heat the queen tends to lie or roll, and the intake of food is decreased. If petted, and often spontaneously she adopts a mating stance with her rear quarters elevated. During mating the queen often emits a loud piercing cry and may paw the male or roll violently.

Pregnancy last about 64 days with a range of 58 to 69 days. There is considerable variation among breeds. The average litter size is five with a range between one and nine.

Contraception in the cat is usually by spaying. I usually recommend spaying around five to six months. The queen can be spayed at any time, but preferably out of heat. During heat the reproductive system is grossly enlarged and the blood vessels involved are engorged and very fragile.

Once again, as with dogs, we all have a responsibility to reduce the number of stray animals. Accurate statistics are not available on the population of cats considered feral or without homes. Take a walk or drive through the back alleys of any town and you will be amazed at the number of cats you will see. The majority of the animals live on handouts, garbage and rodents. The population of these feral animals is virtually impossible to reduce. We should all try to limit the growth of the unwanted animal by neutering the household pet.
