**All about Chicken.**

One of the secrets of tasty chicken is freshness. We choose birds that weigh 2 1/4 lbs. and up because that gives you the best meat-to-bone ratio. And our chickens are shipped chilled. But not frozen. Look for the date on each chicken package in the meat case. It's one more assurance of our chicken's freshness.

Education  
officer  
appointed

Frank Milligan, 26, of Orillia has been appointed the Interpretive and Education Officer at the Historic Naval and Military Establishments in Penetanguishene.

The appointment was made official in May by Robert Montgomery, General Manager of Huronia Historical Parks, Ontario Ministry of Culture and Recreation, under which the Establishments is administered.

Developing and organizing a summer historical interpretive program, and spring and fall educational programs for the Establishments is the main responsibility of the position.

"My goal is to have the visitor not only thoroughly enjoy his visit to the Establishments, but leave with a deeper understanding of the historical significance of the place," Mr. Milligan said.

The Establishments is a reconstruction and restoration of the British naval base and military garrison originally located there from 1817 to 1856. The site is located at the end of Church St., right in Penetanguishene. During the summer the Establishments is a major visitor attraction. It employs about 30 seasonal staff, more than half of them local students.

Milligan has his Honors BA in history and political science from the University of Guelph and he graduated in 1977 from the University of Western Ontario with an MA in history. Since then he has been employed as a historical researcher at the Establishments.

He and his wife Nancy reside on Dominion Ave., Midland.
