

Curtis good news in Bears' latest

by Terry Dupuis
The Bad News Bears was a baseball team of kids which was first introduced in a 1976 movie of the same name. Walter Matthau played their

harried coach, and one of the Bears was a tomboy played by Tatum O'Neal in her first role since Paper Moon. The movie was such a big hit that the Bad News Bears ap-

peared in a sequel last year called 'Breaking Training'. In that outing they had a new coach played by William Devane.

The team is back again this summer in a third movie, 'The Bad News Bears Go To Japan'. This time their coach is Tony Curtis. Curtis plays a hustler named Marvin Lazar who promotes a trip to Japan for the Bears. The Bears are to challenge a rival Japanese baseball team. Through Curtis' conniving he even manages to arrange to have the game telecast. The usual

misunderstandings, misadventures and hijinx occur. The comic highpoint of the film occurs in a scene in which Curtis is forced to take part in a match with a Japanese wrestler, after a promotional scheme backfires on him. Tony Curtis has his best role in recent years in 'Go To Japan'. Lately he has been appearing in rubbish like the violent gangster film 'Lepke' and a cheapie horror flick called 'The Manitou'. Curtis' Marvin Lazar character is a hustler and an opportunist taking advantage of the Bears, but he remains a likeable scoundrel.

great promise in the late 60s in 'The Graduate' and 'Midnight Cowboy' as one of the most talented of the new crop of actors. The 70s have fulfilled that promise with great Hoffman performances in 'Straw Dogs', 'Lenny', 'Papillon', 'Marathon Man' and 'All The President's Men'. Dusty does it again in his latest picture, 'Straight Time'. His searing and intense role as an ex-convict is haunting and stays in the viewer's memory long after the movie has ended. He plays Max Dembo, a convict who has been paroled after serving six years for armed robbery.

READ ANY GOOD LABELS LATELY?

A basic guide to the Who, What, Where, When and Why of Shopping Canadian.

MADE IN CANADA FABRIQUÉ AU CANADA

Why should you Shop Canadian?
Every time you buy something made in Canada, you help keep a Canadian working. You help keep Canadian money inside Canada. You help to expand and strengthen Canada's economy. When you think about it, you help yourself.

When should you Shop Canadian?
Whenever you're satisfied that the product or service you need is (A) made or grown in Canada and (B) of equal or better value and quality. That's not just good advice... it's good sense.

What is made in Canada?
Just about everything you need to help you live the life you want. As the saying goes, we have no bananas, but we do have Apples, Bandages, Cranes, Drills, Elevators, Furniture, Glassware, Holiday resorts, Insulation, Jewellery, Kitchen appliances, Lumber, Machinery, Newspapers, Office equipment, Potatoes, Quilts, Rope, Steel, Tires, Umbrellas, Vaccines, Wines, X-Ray equipment, Yarns, and Zippers. Everything, in other words, from A to Z.

Who should Shop Canadian?
Every day, most of us have the choice. Whether we're buying groceries for the home or supplies for business, farm or industry. If each of us added only \$10 a week to Canadian made purchases, Canada would be over 10 billion dollars better off in just one year. Who should Shop Canadian? You should.

Where does it say Made in Canada?
Sometimes it doesn't. Sometimes a sign says "Produce of P.E.I." or "B.C. Apples" or "Fabrique au Quebec" or "Made in Manitoba" or "New Brunswick Sardines" or "Grown by Saskatchewan Farmers" or "A product of Alberta" or "Fresh from Newfoundland" or "Manufactured in Ontario" or "Nova Scotia Lobster". The point is, if you take the trouble to find out, you can usually tell. And, if it's made anywhere in the ten Provinces or the Territories, it is made in Canada.

This ad was made in Canada. Making this ad employed (for a period of time) a writer, an art director, an account executive, a media buyer, a media planner, a typesetter, an engraver, a platemaker, a traffic operator, several switchboard operators, various mailmen, shippers and secretaries, publication reps, publication make-up people, not to mention all their various suppliers. Everyone of these people lives and works in Canada.

Wasting electricity is a hot issue.

Appliances that heat things up can use a lot of electricity. Here are some tips on how to cut down.

Watch out for the elements. Choose the element that best fits the pan. A lid on the pan also keeps heat from escaping.

Load it in your favour. Wait until you have a full load before you wash. And remember, much of your laundry will get just as clean in cold water. Afterwards, hang your clothes outdoors to dry.

Give your dishes the air. You'll save electricity with your dishwasher if you cancel the final dry cycle. Just open the door and let your dishes air dry.

Electricity down the drain. A dripping hot tap can waste 175 gallons of hot water a month. A new tap washer costs only a few pennies.

Don't sneak a peek. Don't open the oven door unless you have to. And don't use an oven full of heat for one small item.

Don't join the tub club. A shower usually takes less hot water than a bath.
