participants. Everyone must wear a life jacket. Any canoe that overtakes another

canoe must avoid a collision by bearing off and going around it. OPP, Midland Fire

Department, Midland Power Squadron and Ministry of Natural Resources personnel

will be present in nearby boats ready to lend a hand.

St. John Ambulance personnel will be on land along the route taken by the canoeists, and in Sainte-Marie park.

Canoeists have been cautioned to not assist the occupants of another canoe that overturns, but to get out of the area to allow the support craft to give assistance.

One kilometre separates Midland's Centennial Arena, the starting point, and the town dock, where the canoeists end their portage and take to the water.

Participants have been advised that carrying the canoe upside down over their heads is the easiest way.

Paddles, life jackets and equipment should be lashed to the inside of the canoe or secured inside backpacks.

Sash Participants, after assembling at the Centennial Arena at 11 a.m., will be given a souvenir sash in one of four colours. Canoeists will also get a number.

Their number and the colour of their sash will assist organizers in assembling the more than 300 paddlers with more than 100 canoes for the portage and the launching.
