## ATTENTION HOMEOWNERS

Due to the continued hazard of improperly constructed fireplaces, chimneys and wood burning appliances: We once again request your co-operation in complying to the regulations of the Village of Port McNicoll. Permits are required for fireplaces, stoves and chimneys. Application must be made to our office, accompanied by plans in duplicate, to include a finished elevation, a complete cross-section showing the position in the building and where the fireplace, stove and/or chimney is to be located.

The Village of Port McNicoll holds the contractor equally responsible for the permit and plan approval and I must stress the importance of compliance in order to assure you the owner of a reasonably safe installation. Please be advised that requests for inspections are required during fabrication, before closing in, any contentious hazardous area involving distance from combustible material.

We are pleased to support our contractors in a job well done and public demand is gaining strength daily.

We have mailed earlier bulletins to all contractors on our mailing list in previous years, and hope you will direct your contractor accordingly.

Please contact our office if any problem is anticipated.

A building permit is required for the above.
