

Power failure traced to insulator

Downtown Midland last Friday afternoon whose routines were interrupted by a power failure. The power was off in the downtown area

between half an hour and an hour. The problem was at the Midland Public Utilities Commission. Power had to be shut off in a larger

area while the broken part was found and replaced. A 30-year-old glazed porcelain insulator had become cracked.

COUNCILLOR FOR TAY TOWNSHIP

First time

Morland Mount, left, has been with the Midland PUC for 32 years and has never seen anything like it. He, PUC manager Art Evans and lineman Pete Denis hold the broken insulator that failed Friday afternoon and so caused a blackout in downtown Midland.

Gerry Morrison

New employee

Gerry Morrison started his new job as Midland's deputy-treasurer this week.

He comes from Kincardine where he was the treasurer and tax collector for a year.

For five years before that he was assistant to the office manager of Crown Cork and Seal Company Ltd., of Concord, near Toronto. Crown Cork and Seal manufactures aerosol cans and beer caps.

WITH TODAY'S VACCINE THERE'S JUST NO EXCUSE FOR GETTING MEASLES

Recently, there's been a serious increase in the number of cases of measles in Ontario. At a time when modern vaccines are so readily available, it simply doesn't make sense for you or your family to contract such diseases. Keep in mind that measles can lead to serious complications such as pneumonia or encephalitis, which is inflammation of the brain.

Women of a childbearing age should also be sure they are immunized against German measles — a disease that can cause serious birth defects.

Of course, you want the peace of mind all year round of knowing you and your family are protected against disease. But what better time to take some positive action than during November, Immunization Awareness Month, by making sure you're immunized.

While you're at it, ask your doctor or local health unit for your copy of the new Ontario immunization record card.
