CANADIAN WINTERS ARE ROUGH.
THE TOUGH 5HP, 8HP AND 10 HP CAN HANDLE IT

CANADIANA SNOWBLOWERS

Fully serviced and set up in OUR Service Department

EXCLUSIVE PERFORMANCE FEATURES

- ① **ENGINE:** — 5 H.P. 8 H.P. or 10 H. P. 4 cycle, fully winterized.
- ② **FRICTION DRIVE SPEED SHIFT:** — Instant response five-speeds forward plus power reverse offers speeds for varying snow conditions.
- ③ **FRICTION DISC DRIVE:** — Changes ratios by the clashless process of moving the edge of one friction disc inward or outward across the face of another.
- ④ **DRIVE CLUTCH:** — "DEAD MAN" clutch is a finger tip operated lever conveniently mounted on handle to ensure maximum operator safety.
- ⑤ **LIMITED SLIP DIFFERENTIAL:** — Adjustable from differential wheel action to straight through power train action.
- ⑥ **AUGER CLUTCH SYSTEM:** — Governs power supply to the impeller and auger.
- ⑦ **ADJUSTABLE DEFLECTOR:** — Hand operated "worm spring" driven crank rotates chute in a 210 degree arc.
- ⑧ **TWO STAGE AUGER SYSTEM:** — 1st STAGE: — slow turning auger cuts snow and feeds it into the impeller — sealed ball bearings are used on both ends of auger shaft — left and right uugers are shear bolt mounted with grease fittings to ensure shearing action on impact.
2nd STAGE: — snow is fed into high speed impeller where it is forced out of the directional discharge chute. — hardened worm gear drive between the two stages is contained in a cast housing with sealed ball bearing side support plates.
- ⑨ **HANDLE BARS:** — 1 1/4" diameter, 14 gauge painted tubular steel construction complete with rubber hand grips.
- ⑩ **CONTROL CONSOLE:** — Enclosed handle mounted within one hand reach.
- ⑪ **TIRES:** — fully pneumatic wide low profile traction tires.
- ⑫ **DRIFT CUTTERS:** — Optional on all models.
