

Winter's far from over

More snow's on its way!

Low-priced Snow Travel (not shown)

Full of drive with its deep-digging lug tread. Twin plies of giant-dimensional Nylon cord for casing strength. Blackwall.

(1) Winter Express 4-ply snows

Identical rugged tread covers both the Nylon blackwall or smoother-riding Polyester white-wall. High traction either way.

(2) Hiway-Byway 'giant' 4-ply

Bigger all around. Four Du Pont 66 Nylon plies give added muscle to the tread for barreling through hub-deep snow.

(3) Winter Express 2+2 Polyflex

2 Polyester belts, supported by 2 'giant' plies of Du Pont 66 Nylon, eliminate the harshness of some glass or steel belts.

(4) Hiway-Byway glass-belted 2+2

Flexible, super-tough, twin glass belts encircle 2 Du Pont 66 Nylon cord plies. Sure-footed tread... self-cleaning lugs.

(5) Glass-belted Polyester radial

Polyester casing is both rugged and resilient in this Winter Express radial. Two glass belts contribute extra winter drive.

(6) Gas-saving steel-belted radial

Winter Express with two steel belts and rugged 2-ply Nylon casing. Coarse-lugged tread provides outstanding traction.

(7) Supreme steel-belted radial

Extra-mileage quality. Nylon-capped plies of Polyester for smooth ride... two rugged steel belts to minimize tread squirm.

(8) Kevlar belts for super strength

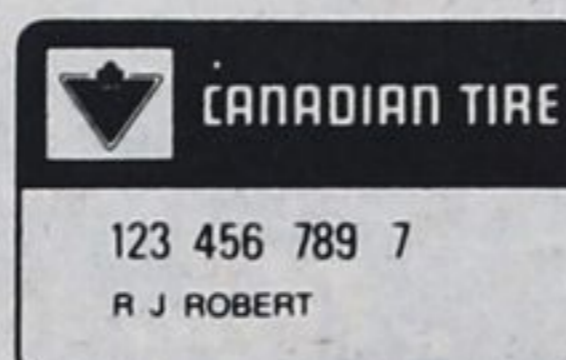

Hiway-Byway radial with road-retaining grip when temperatures plunge. Two Kevlar belts ensure smooth, low-speed ride.
