Travellers to China

Travellers to China can gain greater understanding of that country by reading The People's Emperor, a biography of Mao Tse Tung, written by D. Wilson.

The author offers us an account of Mao's life from his difficult beginnings as the son of a peasant to his struggles to educate himself and the events that led to his takeover of China. Interesting details about Mao and his relationship to his people are provided.

The picture we get of the Chinese leader is different from that which we have received from sources, principally newspapers, radio and TV. The People's Emperor, Pub. by Doubleday, 390 pages Price \$19.95.
